

FARM PROGRAM IS EXPLAINED

SUGGESTIONS FOR RAISING REVENUE GIVEN COMMITTEE

HOUSE WAYS AND MEANS SUB-COMMITTEE SEEKING METHODS RAISING FUNDS

WASHINGTON, Mar. 5.—(P)—Administration experts submitted to a house ways and means subcommittee today suggestions for raising up to \$446,000,000 additional revenue from income taxes and \$221,000,000 annually from farm processing taxes.

Chairman Samuel B. Hill (D-Wash.) emphasized to reporters that the figures and schedules were mere suggestions for possible sources of revenue submitted to the subcommittee because it wants complete information on all methods of obtaining money to meet President Roosevelt's tax proposals.

The income tax material came from treasury experts, while agriculture department officials supplied the processing tax estimates.

The treasury experts, Hill said, also turned in figures to show how a 1 per cent general manufacturers excise tax would bring in around \$180,000,000 a year, while a 5 per cent tax would yield about \$310,000,000.

Hill said the proposed excise levies would not apply to liquor and tobacco, already taxed, nor to food, clothing and medicine.

The present yield from excise taxes, he said, is about \$380,000,000.

In the income tax field, he said it was estimated \$45,000,000 would be added to the revenue of a single man be lowered from \$1,000 to \$800 and that of a married person from \$2,500 to \$2,000.

Two Income Plans.

Leaving exemptions as they are now, he said, and at the same time boosting the normal tax from 2 to 6 per cent would add an estimated \$121,000,000 to the government's annual receipts.

By lowering exemptions on surtaxes from \$4,000 to \$3,000, Hill asserted, and sharply increasing the rates in income brackets up to \$100,000, the treasury would

President Lost Waistcoat Studs Late at Dinner

WASHINGTON, March 5.—(P)—The reason President Roosevelt was late last night to a cabinet dinner was he had lost a button at the White House.

The President could not find the studs for his waistcoat. The whole upstairs of the White House was searched and finally he had to wear a set of dinner jacket buttons in his full dress vest.

It was said a further search for the lost studs was being made today.

MEETING OF JUDGES AND COMMISSIONERS CORSICANA IN MARCH

PROGRAM AND ENTERTAINMENT FEATURES OUTLINED WEDNESDAY CONFERENCE

Plans for the program and entertainment features for the convention of the East Texas County Judges' and County Commissioners' Association were perfected at a meeting held here Wednesday afternoon between C. E. McWilliams, county judge, and W. D. Colvin of Waxahachie, Ellis county judge and president of the association. The convention will be held here March 26-28.

A large attendance is expected and local officials and citizens and the Corsicana Chamber of Commerce are making plans to entertain the convention. Included in the features will be a barbecue and inspection trip of the big Texas Power and Light company plant at Trinidad. Fishing, sight-seeing, golf, picture shows, and other courtesies are planned.

Registration and an informal reception will be held Thursday night at 7:30 o'clock with a dinner sponsored by the Corsicana Chamber of Commerce at the headquarters of the convention at the Navarro Hotel.

The first business session will be held Friday morning at 10 o'clock. President W. D. Colvin of Waxahachie will preside. The invocation will be given by Rev. T. Edgar Neal, pastor of the First Methodist church. The welcome address will be delivered by

Goodyear Must Cease Alleged Discrimination

WASHINGTON, March 5.—(P)—The Federal Trade Commission today ordered the Goodyear Tire and Rubber Company of Akron, Ohio, to "cease and desist" from discriminating in price between Sears Roebuck and Company and Goodyear's retail dealer customers for automobile tires.

The company is ordered to stop selling the tires to Sears Roebuck "at net realized prices which are lower than the net realized prices at which the said respondent (Goodyear) sells the same sizes of tires of comparable grade and quality to individual tire dealers or other purchasers."

F. W. Litchfield, Goodyear president, promptly announced his company's intention of appealing the commission ruling to the courts, saying that if permitted to stand, the decision "would wipe out a widely used trade practice under which a substantial proportion of the country's total retail business is done."

The order leaves Goodyear free to remove the discrimination

SENATE APPROVED BILL FOR RURAL ELECTRIFICATION

MEASURE CARRIES TOTAL OF \$420,000,000 BE LOANED NEXT TEN YEARS

WASHINGTON, March 5.—(P)—The senate today passed the \$420,000,000 Norris rural electrification bill and sent it to the house.

Seeking to undertake a ten-year program to electrify rural America, the bill would authorize lending \$50,000,000 a year for the next two years and \$40,000,000 a year for eight years thereafter. Loans could be made to states, rural communities, cooperatives or limited liability companies to finance generating and distributing facilities. The bill also would permit loans to farmers for household and farm equipment to use the power.

The measure represented a compromise reached by Senator Norris (R-Nebr.) with President Roosevelt and administrative officers. Norris first had proposed an authorization of \$1,000,000,000 over a ten-year period.

Before passage, the bill was amended on the motion of Logan (D-Ky.) to prohibit any borrower from selling any federal-aid property to private companies until his loan is repaid and then only with the approval of the rural electrification administration.

Also adopted was an amendment by Senator Walsh (D-Mass.) requiring borrowers to award contracts for lowest bidders in all purchases over \$500.

Tokyo Replies To Statements Joseph Stalin

TOKYO, March 5.—(P)—The association by Joseph Stalin, leader of Soviet Russia, that his nation would resist any Japanese aggression in outer Mongolia was answered today by a foreign office spokesman saying, "We are not able to take his statements seriously."

The comment concerned an interview given by Stalin to Roy W. Howard, chairman of the board of the Scripps-Howard newspapers.

Stalin has frequently declared, "The Japanese spokesman, 'that the Soviet would not surrender an inch of Russian territory and likewise would not invade other territories, but it is not clear whether or not outer Mongolia is Russian territory."

NUMEROUS STRIKES FLECK INDUSTRIAL AMERICA THURSDAY

LABOR TROUBLES AND STRIKES REACH FROM CALIFORNIA TO MASSACHUSETTS

By The Associated Press.

New labor difficulties cropped out today after tuesday efforts in most of the strike centers met with failure.

Developments included:

Harrisburg, Ill.—A general labor holiday was called by the Progressive Miners of America as a demonstration against the re-opening of a closed mine with employees they termed "imported" members of a rival union, the United Mine Workers.

New York.—The service workers strike went into its fifth day after a conference of employee's spokesmen and building operators ended in disagreement. Mayor LaGuardia reported the union's offer to arbitrate questions pertaining to the dispute affecting hundreds of skyscrapers and apartments had been rejected.

Jennette, Pa.—Pennsylvania Rubber Co. officials established a temporary office in nearby Greensburg. The plant here was picketed with 800 employees seeking union recognition and higher wages remained on a "holiday."

Boston.—The strike of 4,000 ladies garment workers entered its second week with no settlement sighted.

E. Paso, Tex.—The Central labor union voted a general boycott against the El Paso Electric Light Co. to aid striking electrical workers.

Akron, O.—Charging a "lockout" had been effected, the union match workers federal labor union stationed pickets at the Palmer Match Co., employing more than 450. More than 14,000 remained idle in the Goodyear Tire and Rubber strike.

San Pedro, Calif.—The Liner California prepared to sail after the 374 crew members agreed to abandon their three day strike.

Newburgh, N. Y.—Striking teamsters halted trucks at entrances to the city to support their demands.

BUILDING OPERATORS BLAMED FOR FAILURE STRIKE SETTLEMENT

MAYOR LAGUARDIA SAYS UNION MEMBERS OFFERED TO ARBITRATE MATTER

By TOM HAGENBUCH, Associated Press Staff Writer.

NEW YORK, March 5.—(P)—Carrying out his promise of a "final finish" following unsuccessful peace negotiations, James J. Bambrick, leader of the building workers strike, today ordered his district lieutenants to prepare all union members to face the big mid-town office building area.

In the mid-town or Grand Central district are located some of the city's largest skyscrapers, notably Rockefeller Center, the Empire State building and the Chrysler tower.

Orders for the strike call also went out to field operatives in two other sectors as yet unaffected by the walk-out—Harlem and Washington Heights.

Tomorrow, Bambrick declared, the strike zone would be extended to Brooklyn and Queens. He added that he had been notified by officials of the Hotel Employees' Union that workers in some of the city's largest hostilities would join the walkout tomorrow.

NEW YORK, March 5.—(P)—Shortly after Mayor LaGuardia appealed to reality interests to

'DEVIL'S BEEFTUB' MURDER CASE STIRS ENGLAND

The murder trial of Dr. Buck Ruxton, Mohammedan physician, at Manchester is stirring England as few court hearings have in years. Dr. Ruxton is charged with killing his wife and their children's nursemaid, Mary Jane Rogerson, and leaving their dismembered bodies in a lonely ravine in Dumfriesshire, Scotland, near the celebrated "Devil's beeftub." The picture at the top shows where parts of the bodies were seen in the tangled underbrush by passersby on the culvert. Below is the roadway and culvert parapet. (Associated Press Photos)

ITALY APPARENTLY WILL ACCEPT MOVE TO END HOSTILITIES

CERTAIN RESERVATIONS ARE CONTEMPLATED BUT NATURE IS UNKNOWN

By CHARLES H. GUPTILL, Associated Press Foreign Staff.

ROME, March 5.—(P)—Italy will accept the League of Nations appeal for peace with Ethiopia, an excellent source said today, as a basis for discussion under certain conditions.

What the conditions would be was not disclosed exactly, but the principal one was declared to be that territory already occupied by Italy in East Africa must be considered hers, and must not form any part of the peace negotiations.

(This prediction of a conditional Italian acceptance of the League conciliation committee's appeal for an end to hostilities, with a view to definite peace discussions within the framework of the league, followed an Addis Ababa announcement of approval of the proposal—without reservations.)

Another Italian condition to final acceptance of the peace appeal was understood to be with

Spring Clean-Up Campaign

This is Centennial Year in Texas and a Spring Clean-Up Campaign should receive the enthusiastic support of every man, woman and child. Every citizen should have a wholesome pride in his home city, its streets, playgrounds, parks and buildings. Homes and surroundings freshly painted, with well kept lawns and gardens, increase property values and intensify community interest. Cleanliness creates cheer, courage and confidence.

A committee has been selected from the various civic organizations to make the campaign possible and every citizen should give his or her full cooperation in making this city attractive to the many visitors who will be with us within the next few months. The Centennial will be a reality in June, and let us leave nothing undone that will reflect upon our Civic attractiveness. Let me urge that the program begin at once, and continue through the Centennial period. Again asking your loyal support.

J. S. MURCHISON, Mayor.

Puerto Rican Leader Charged With Conspiracy

SAN JUAN, P. R., Mar. 5.—(P)—The national guard units of San Juan were mobilized in their armories against possible emergency of recruiting soldiers in a conspiracy to overthrow the government of the United States by force.

SAN JUAN, P. R., Mar. 5.—(P)—United States Marshal Draught on today arrested Albizu Campos, nationalist leader, on a charge of recruiting soldiers in a conspiracy to overthrow the government of the United States by force.

The warrant for arrest also charged Campos, a lawyer and

PWA SLUM CLEARANCE CONDEMNATION RIGHT CASES ARE DISMISSED

WASHINGTON, March 5.—(P)—Two new deal cases involving the government's right to condemn and for PWA slum clearance and low cost housing projects were dismissed today by the Supreme Court at the request of the government.

The action leaves in effect lower court decisions that the government did not have the right of condemnation for such purposes.

The decisions grew out of projects in Louisville, Ky., and Detroit.

The action was requested by Solicitor General Stanley Reed. He gave no reason for the decision.

"Let them be dismissed," said Chief Justice Hughes.

The entire proceeding occupied only a few seconds.

GERMAN REARMAMENT DURING PAST YEAR HAS BEEN RAPID

NAZI LEADERS BELIEVE RETURN OF COLONIES AND REVISION FRONTIERS NEAR

(EDITOR'S NOTE.—The progress of Nazi Germany's rearmament, the Reich's present situation at home and abroad, and prospects for the future are described and analyzed authoritatively in a series of three dispatches by members of the Associated Press Berlin Bureau. The first, by Melvin K. Whiteleather, reports on armaments to fortify its world bargaining power. The second, by Wade Martin, will answer tomorrow the question: Is Germany winning the battle of the Ruhr? The third, by Melvin K. Whiteleather, will tell Saturday of the rough path ahead of the Reich.)

The production was estimated by treasury officials at about 16,000,000 ounces per year.

Morgenstern said the treasury would fix the price to be paid for the metal rather than to be governed by the prevailing New York price. The treasury figures is about one-fourth cent an ounce higher than that quoted in New York.

The secretary said it was "perfectly possible" that similar arrangements might be negotiated with South American silver producing countries.

This government now has an arrangement with Mexico to purchase that republic's entire output of the newly mined metal.

The buying is done in pursuance of the silver purchase act requirement that treasury stocks of the metal be built up to one-third those of gold or until the price reached \$1.20 an ounce—the coinage value.

Selassie Accepts League's Appeal Ethiopia Peace

By The Associated Press.

The League of Nations' appeal for peace was accepted without qualification by Emperor Haile Selassie of Ethiopia, but an Italian source said Italy would accept it only under certain conditions.

Just what those conditions were was not stated, but it was assumed that Italy would demand the right to keep the portions of Ethiopia she has conquered.

On the battlefronts, the Italian reports that they were continuing their mopping up operations along the Takaze river.

The Ethiopians stated that an Italian Red Cross unit.

TWO HOUSTON OIL MEN KILLED WHEN AIRPLANE CRASHES

MACHINE HIT MOUNTAIN NEAR ARKANSAS-OKLAHOMA LINE IN FOG

CAMP EAGLETON, Ark., Mar. 5.—(P)—Two men tentatively identified as H. E. Woodward and Edward Martin, Houston, oil men, were killed this morning when a purple-winged airplane crashed in a dense fog on Rich Mountain near the Arkansas-Oklahoma line and burst into flames.

The ship crashed two miles from this civilian conservation corps camp. A party of 15 men, headed by Lieutenant M. B. Deham, went to the scene. They returned to camp at noon and reported a portion of the plane's license number, the numerals "486" still was visible.

Floyd Munice, manager of the Fort Smith airport, whence the two Texans had taken off this morning en route to Houston, said the plane owned and piloted by Woodward, a Beechcraft model he had purchased recently at Wichita, Kas., carried license number NC15486.

Both bodies were badly mutilated. All clothing was destroyed and positive identification could not be made immediately. Two

United States To Buy All New Canadian Silver

WASHINGTON, March 5.—(P)—Secretary Morgenthau said today his agreement to buy newly mined Canadian silver through the Bank of Canada was expected to absorb the dominion's entire output.

The production was estimated by treasury officials at about 16,000,000 ounces per year.

Morgenstern said the treasury would fix the price to be paid for the metal rather than to be governed by the prevailing New York price. The treasury figures is about one-fourth cent an ounce higher than that quoted in New York.

The secretary said it was "perfectly possible" that similar arrangements might be negotiated with South American silver producing countries.

This government now has an arrangement with Mexico to purchase that republic's entire output of the newly mined metal.

ROOSEVELT SUCCESS IN GEORGIA COUNTY SHARES INTEREST WITH INCREASING ECONOMIC DEBATE

By LEONARD B. SHUBERT, Associated Press Staff Writer.

WASHINGTON, Mar. 5.—(P)—A primary skirmish in which Roosevelt forces drew first blood from their Talmadge foes today shared interest with a sharpening politico-economic debate.

Administration leaders were delighted over the results of the nation's first presidential primary test, held in Seminole county, Ga. Robinson said that the voters calling, by a margin of more than 5 to 1, for the renomination of President Roosevelt over Talmadge.

Marion Allen, Roosevelt manager in Georgia, expressed "appreciation to the loyal democrats."

Talmadge declared "I doubt if the Talmadge folks had much chance to get out and vote."

As to the economic argument, critics of the new deal were pointing with increasing frequency to continuing large scale unemployment. Colonel Henry Brockbridge, an anti-administration demagogue, in a Baltimore speech yesterday that new deal "economic folly" probably is responsible "for a third and perhaps a half of existing unemployment."

On the other hand, administration leaders were stressing difference in business conditions now and in 1933. Senator Robinson (D-Ark.), debating with Senator Dickinson (R-Ia.) on the senate floor yesterday, asked if the Iowa senator preferred the "prosperity" of March 4, 1933, to present conditions.

Dickinson had declared "the entire nation is indignant and disillusioned." And that 15 billion dollars had been "squandered in three years of waste and recklessness extravagance."

Robinson said that if the country preferred conditions in the days of the Hoover administration to those of today, it meant "the

SECRETARY WALLACE INVITES CRITICISM AND SUGGESTIONS

MINIMUM STANDARDS PERFORMANCE OUTLINED AT MEMPHIS AND CHICAGO

By JERRY GREENE, Associated Press Staff Writer.

MEMPHIS, Tenn., Mar. 5.—(P)—"Criticism and suggestions," were invited by Secretary Wallace in a statement to the nation's farmers read here today giving first notice of proposed requirements which they must meet to receive subsidy payments for soil conservation.

The statement, read simultaneously at regional meetings of farm leaders here and at Chicago, outlined these "minimum standards of performance."

1. The farmer must have in 1936 an acreage of soil conserving crops equal to not less than a given per cent of the total acreage planted in soil-depleting crops. Wallace estimated the nation has 300,000,000 acres of soil-depleting, or cash, crops, and 100,000,000 acres of soil conserving crops.

2. The farmer must have in 1936 an acreage of soil conserving crops not in excess of a base determined for the individual farm.

3. The farmer must maintain in 1936 the number of acres formerly devoted to food and feed crops for consumption on his farm.

The secretary's statement said to participate in the new \$500,000,000 soil conservation program, each farmer should have a base of the normal acreage of all soil-depleting crops grown on his farm; the normal yield per acre of the major soil-depleting crops grown, and the acreage to be devoted to soil-conserving and soil-depleting uses in 1936.

Veteran Gets His Leg Held Because Bill Was Unpaid

WASHINGTON, March 5.—(P)—By court decree, William C. LaSalle, one-legged war veteran, today recovered a \$1,000 leg held by the government because he had not paid for an unpaid bill of \$25.

Another hearing March 25 on the landlady's claim was ordered, however, by the magistrate who considered the case at nearby Mount Rainier, Md.

The ex-soldier said he didn't have the money but he needed the leg badly.

Charles E. Turner, Finance Officer of Centennial, Dies

WAS ALSO FORMER MAYOR OF DALLAS AND PROMINENT REAL ESTATE OPERATOR

DALLAS, March 5.—(P)—Charles E. Turner, former mayor of Dallas and prominent real estate operator, died here today of a heart attack.

Turner, until a year ago mayor of Dallas, was admitted to a hospital several days ago suffering with a streptococcal throat infection. He had been in a semi-conscious condition for several days.

Turner was personally supervising the writing and production of "Cavalcade of Texas," historical pageant of the past century of Texas life, when taken ill last week with his mumps.

He was newly doing the first council manager administration, which began in 1931. He was elected to the city council but was appointed mayor after the death of T. L. Bradford.

In 1935 he was named finance director of the Texas Centennial Exposition which placed the financial structure of the fair under his control.

He had been a prominent real estate operator here for many years. He was born Sept. 13, 1886, in Richardson, Dallas county, educated in the Dallas public schools and served overseas with the 90th division.

Turner was cited for bravery in the St. Mihiel and Meuse-Argonne offensives.

Mr. and Mrs. Bill Miller and son spent the week-end with relatives in Oklahoma.

Mrs. T. H. Eubanks of Mexia spent Thursday with Mrs. D. S. Eubanks and Patsy Ruth and Miss Frances Chambliss.

Mrs. D. S. Eubanks and Patsy Ruth accompanied her home to spend the week-end.

Clara Collins spent Thursday night with Frances Chambliss.

Mr. and Mrs. John Patton and daughter, Amanda Lee, and Mr. and Mrs. Roy L. Moore spent Tuesday in Dallas with Boulah Patton, who is attending a business college.

Use a Daily Sun Want Ad for quick results.

Angus, March 5.—(Spl.)—Mr. and Mrs. Roy Ware of Corsicana spent the week-end with their parents.

Mr. and Mrs. M. F. Stewart and family spent Sunday in Kilgore.

Mr. and Mrs. Clarence Harris and son, Donald, of Minerva visited her sister, Mrs. B. R. Thomas, Sunday afternoon.

Mr. and Mrs. L. P. Tilton visited Mr. and Mrs. J. L. Jackson in Corsicana Sunday afternoon.

Mrs. L. H. Stewart and family and Mr. and Mrs. Elmer Stewart and daughter, Alpine, spent Sunday in Emmett.

Mr. and Mrs. Jim Boyd and family of Bardwell spent Sunday with her sister, Mrs. S. L. Story, and family.

Rev. Tom Rockett of Richardson and Rev. Richster of Dallas visited Mrs. L. H. Stewart and family Friday evening.

Mr. and Mrs. Clifton Magness and son of Wortham visited Mr. and Mrs. W. G. Fowler Monday night.

Rev. S. R. Goff of Longview spent Thursday night and Friday with friends.

Mr. and Mrs. John Ware spent the week-end with his sister, Mrs. Bill Blissett of Corsicana.

Miss Agnes Senasay of Corsicana spent Tuesday evening with Miss Lola Reed.

Blooming Grove, March 5.—(Spl.)—E. J. Huff is in the Navarro Clinic for an operation.

E. B. Johnson was a week-end visitor in Dallas.

Mrs. J. W. Brown, Miss Zama Dell Phillips and Miss Viola George were in Corsicana Monday.

Miss Margaret Bacon of Corsicana was here Sunday.

Miss Fay Quinley of Malone was a weekend visitor here.

Rev. J. W. Whitefield spent Tuesday and Wednesday in Waco.

Miss Nellie Mae Cumpston of Corsicana spent the week-end here.

Mr. and Mrs. Earl Brown and children spent the week-end in Athens.

Rev. J. W. Whitefield was in Corsicana Monday.

Porter Johnson spent Tuesday in Waco.

C. L. Tollman, Jr., was here from Denton for the week-end.

Mr. and Mrs. P. H. Woodard of Hubbard were here Sunday.

Mr. and Mrs. L. I. Griffin and Mrs. Alma Thurman of Corsicana were here Sunday.

Miss Elizabeth Dixon, a student in Denton, was at home for the week-end.

Miss Lena Tillman, who is teaching in Port Arthur, spent the week here.

Miss Nellie Beth Hartley, who is attending school in Denton, was at home for the week-end.

Mrs. Chas. Cox of Galveston is here visiting her parents, Mr. and Mrs. C. L. Tillman.

Mrs. George Mabry was in Corsicana Tuesday.

Mrs. Carolyn Oliver and Mrs. Ralph Dosier spent Saturday in Dallas.

C. C. Isbell has returned from St. Louis where he attended a meeting for teachers.

Mrs. Maggie Johnson spent Tuesday and Wednesday in Waco.

Mrs. Jim Richards and Mrs. Newt Middlebrook of Richland were here Friday.

Mrs. J. H. Whorton and Mrs. F. E. Compton are spending this week in Marlin.

Mrs. E. B. Robinson had as her guests Sunday, Mrs. Harris Ransom, Mrs. Jim Robinson, Miss Tillie Babb and Miss Adelaide Robinson of Corsicana.

Texas Centennial Stamps In Record First Day Sales

GONZALES, March 3.—(P)—Uncle Sam made a good investment when he issued the special Texas Centennial postage stamps. At least, he sold lots of stamps.

An additional 300,000 stamps, commemorating Texas' 100th anniversary of freedom from Mexico, were ordered rushed here by special plane after the supply of 1,000,000 was exhausted in a few hours yesterday, opening day of the sale.

Robert E. Sellers, superintendent of the division of stamps, said he believed cancellations of more than 300,000 of the Centennial issue set an all-time sales record for one day.

The first stamp sold was placed on a package addressed to President Roosevelt, an ardent stamp collector. Lieut. Gov. Walter Woodall bought the first stamp.

Thousands of letters and packages bearing the stamps were mailed to all parts of the world.

The first shot of the Texas revolution was fired at Gonzales. That is the reason this town was selected to open the sales, and yesterday was selected as the opening day because it was the 100th anniversary of Texas' Declaration of Independence and the birthday of Gen. Sam Houston, soldier-statesman hero of Texas' fight for liberty.

Mrs. Lonnie Phillips spent last week in Corsicana with her sister, Mrs. Dick Brunner.

Miss Evelyn Mitchell spent the week-end in Barry.

Ernest Heard is visiting his sister, Mrs. Ella Paul, this week.

Mr. and Mrs. Bert Inman spent the week-end in Kerens.

Hal Johnson of Kerens was in Rural Shade Friday.

Clifford Breeding spent the week-end in Kerens.

Mr. and Mrs. Bert Inman spent the week-end in Kerens.

Tupelo, March 5.—(Spl.)—Rev. Henry of Rice was visiting friends in our community Friday afternoon.

Mrs. Pleas Mitchell and little son left for Seguin Wednesday night where she joined her husband who is working there.

Mr. and Mrs. Allison Jones of Roane visited Alvin Jones and family Sunday.

Mr. and Mrs. L. M. Williams and daughter, Corinne, and Frances and Scott Bowden attended the Powell high school junior's annual play, "Happy Valley," at Powell Friday night.

We are glad to report that Mrs. M. E. McMullan is resting some better at present.

Mr. and Mrs. Ernest Edmondson of Rice were Tupelo visitors Monday afternoon.

Mrs. Johnnie Beasley of Chaffield attended church services here Sunday morning.

A number from this community attended the funeral services of Bill Corner at Corsicana Sunday afternoon.

Rev. W. M. Justice being in a revival meeting in Corsicana, his appointment here was filled by Rev. Standifer of Chaffield Sunday morning.

J. I. Monts of Ore City visited in the home of Mrs. M. E. McMullan Sunday. Mrs. Monts returned home last night after being with her mother for the past few weeks.

Rural Shade, March 5.—(Spl.)—Tom Bradley and family of Trinidad were Rural Shade visitors Sunday.

Mr. and Mrs. Elbert Davis and daughter, Dortha, of Dallas, visited the Trents recently.

Mrs. W. A. Morgan and children of Jacksonville visited Mrs. Morgan's grandmother, Mrs. G. A. McElvany over the week-end.

Mrs. C. A. Sumner and children of Jacksonville spent the week-end with Mrs. H. H. Trent.

Mr. and Mrs. Herman Howell spent Saturday night with their mother, Mrs. Ben Howell.

Johnnie Quinn and wife were Kerens visitors Monday.

Bobbie Evelyn Trent is on the sick list this week.

Mrs. Flakie Ellis of Trinidad spent the week-end with her mother, Mrs. Mark Phillips.

Mrs. Georgia Bell of Gilmer is spending a few days visiting her mother and father, Mr. and Mrs. Frank Farris.

Mr. and Mrs. Ralph Chanle of Oak Grove spent a few days last week visiting Mr. and Mrs. Frank Farris.

Mrs. Lonnie Phillips spent last week in Corsicana with her sister, Mrs. Dick Brunner.

Miss Evelyn Mitchell spent the week-end in Barry.

Ernest Heard is visiting his sister, Mrs. Ella Paul, this week.

Mr. and Mrs. Bert Inman spent the week-end in Kerens.

Hal Johnson of Kerens was in Rural Shade Friday.

Clifford Breeding spent the week-end in Kerens.

Mr. and Mrs. Bert Inman spent the week-end in Kerens.

Mildred, March 5.—(Spl.)—There were 70 enrolled in Sunday school here Sunday and due to illness of Rev. Jimmie Miller, the pastor, was unable to preach.

Rev. McFarlin of Baylor at Waco delivered the message at the morning hour and Rev. Teel, also of Baylor, at the evening hour.

The Mildred Baptist church presented a play entitled, "O Fashion Mother," at the school auditorium Friday night.

Miss Edith Strother underwent an operation for appendicitis at the P. and S. Hospital Sunday morning.

Mr. and Mrs. Herman McNeel and family of Eustice visited Mr. and Mrs. Oliver Gray Friday night.

Mrs. Jim Stockard and Mrs. Corene Goodman and Mrs. Bill Ray, of Puyallup spent Monday night with Mr. and Mrs. D. F. Brown.

Mrs. Lula Mae Taylor visited Miss Opal Wright Saturday.

Grandma Lee of Emhouse is visiting her daughter, Mrs. Oliver Gray.

Miss Juanita Perry is on the sick list this week.

Mack White and son, Elza, were Corsicana visitors Monday.

Mr. and Mrs. Elton Boyd and family of Gladewater and Mr. and Mrs. Lloyd Burton and Earl Mosley of Phillips Chapel spent Saturday night and Sunday with Mr. and Mrs. D. F. Brown.

Bobbie Lee and Miss Pauline Lee of Emhouse visited relatives here Thursday.

Miss Anita Wilbanks of the East Texas oil field spent last week with Miss Mary Beth Jepson.

Mr. and Mrs. L. T. Graves and Mr. and Mrs. Willard Oakley of Ziona Rest spent Sunday with Mr. and Mrs. W. E. Milner.

Mr. and Mrs. "Dumpy" Ross and daughter, Helen Fae, of DeArmon spent Saturday night with Mr. and Mrs. Calvin Ross and family.

Miss Theresa Gray spent Sunday with Miss Helen Brown.

SWEEEPING CHANGES ARE RECOMMENDED IN FEDERAL TAX LAWS

THOROUGH REVISION OF OLD LAWS AND SEVERAL NEW INCOME PROPOSALS

WASHINGTON, Mar. 3.—(P)—A tax revision program which stunned congress by its breadth was proposed by President Roosevelt today as a means of raising revenue for the farm program and the bonus.

In a special message, which was greeted coolly by some congressmen and condemned from within the public ranks, Mr. Roosevelt asked repeal of the present corporate tax system which brings in almost a billion dollars a year and urged substitution of a drastic tax on undistributed corporation profits.

This levy, designed to force billions of dollars into distribution among stockholders, was estimated to yield roughly at \$1,600,000,000.

The house ways and means subcommittee on taxation promptly agreed to begin work tomorrow on a tentative bill to meet the administration request. Rep. Samuel E. Hays (D-Wash.) is chairman of this group.

Chairman Doughton (D-NC) of the whole committee said in a statement he was anxious to "proceed as promptly and expeditiously as possible, consistent of course, with a careful study of the subject, to the immediate consideration and preparation of a tax bill."

Treasury experts said the new proposal would not only cover the taxes the President asked congress to repeal but would raise \$200,000,000 a year additional for the farm program and the bonus.

This was the only permanent tax proposed.

The President also asked temporary processing taxes and a special "windfall" tax to replace the processing taxes which were lost during the current fiscal year amounting to \$500,000,000 in round figures.

He told congress his proposal would not only simplify the tax structure but would plug up one of the biggest "leaks" in the present laws.

Congress was asked to repeal the existing capital stock tax, the corporation excess profit tax, the graduated corporation income tax enacted only last year and the present exemption of dividends from the normal (4 per cent) tax on individual income.

On Capitol Hill, hostility developed even among democrats of the house ways and means committee which will write the legislation.

"I don't think that the taxing of corporate surpluses is the proper thing," said Rep. Thompson (D-Ill.).

"I believe it would have a very adverse effect on business that should be shrewdly kept to avoid some of the unemployment."

"It is hard to reconcile with the President's breathing spell announcement, and my action as a member of the committee will be exactly in accord with those views."

The committee was to assemble at 2:30 p. m., to consider procedure on the tax program.

"The President in his message said 'consistent policy with his long action message calls for such action,' and I am sure that the President's breathing spell announcement, and my action as a member of the committee will be exactly in accord with those views."

The committee was to assemble at 2:30 p. m., to consider procedure on the tax program.

"The President in his message said 'consistent policy with his long action message calls for such action,' and I am sure that the President's breathing spell announcement, and my action as a member of the committee will be exactly in accord with those views."

Federal Judge Faces Charges of Impeachment

WASHINGTON, March 3.—(P)—

For the 12th time in history the senate will sit in judgment in impeachment proceedings—this time against Federal Judge Headstead L. Ritter.

At a time to be set by the judiciary committee, the Southern Florida judge will face the entire chamber on charges of misbehavior, high crimes and misdemeanors.

The house yesterday voted 181 to 146 for impeachment in acting on committee charges that Ritter accepted \$4,500 from a former law partner who was allowed a \$75,000 receivership fee.

preme court decision and the increase in expenses caused by the adjusted compensation payment act.

"I emphasize that adherence to correct policy calls for such action."

"Stop Leak" Policy. The chief executive said he was leaving "to the discretion of congress the formation of appropriate taxes. But he invited the attention of congress to a form of tax which would accomplish an important tax reform, remove a major inequality in our tax system and stop leaks in present surtaxes."

Mr. Roosevelt then proposed the tax on undistributed corporate income, graduated and so fixed as to yield approximately the same revenue as would be yielded if corporate profits were distributed and taxes in the hands of stockholders."

The president did not mention a specific rate but said the treasury would submit estimates by which the desired yield could be realized. It was understood the proposed rate was a graduated tax averaging about 35 1-2 per cent.

The president made it plain he expected the new corporation tax not only to cover the repeated tax but to raise the \$200,000,000 which he characterized as permanent levies.

He proposed the windfall tax and temporary processing taxes to cover the \$500,000,000 which were lost during the current fiscal year amounting to \$500,000,000 in round figures.

He told congress his proposal would not only simplify the tax structure but would plug up one of the biggest "leaks" in the present laws.

Congress was asked to repeal the existing capital stock tax, the corporation excess profit tax, the graduated corporation income tax enacted only last year and the present exemption of dividends from the normal (4 per cent) tax on individual income.

ANOTHER SMASHING VICTORY BY FASCIST ARMIES REPORTED

LAST COMPLETE ETHIOPIAN ARMY IN NORTH CUT TO PIECES TUESDAY

By EDWARD J. NEIL
(Copyright, 1936, By Associated Press.)

With the Northern Italian Army, at the Front, Ethiopia, March 3.—The Italian army today crushed 30,000 Ethiopians under the command of Ras Imeru, governor of Gojjam province, concluding a battle begun three days ago.

The Italian victory smashed the last complete Ethiopian army on the northern front.

The victory was as complete as those over the armies of Ras Mulugheta, Ras Kassa and Ras Seyoum.

Ras Imeru's army was defeated on the western front along the Takkeze river, where the Ethiopians sought to bar the Fascist legions from moving in the direction of Lake Tana, headquarters of the Italian army.

The Fascist mopping up in Eastern Tefenbi province proceeded today.

The Eritrean third army corps continued its work of consolidation.

Four thousand Ethiopians, surrounded by Italians as they sought to escape from the Tembien sector, were killed by machine gun fire from Italian airplanes.

Advancing rapidly, the Italians occupied Mounts Andino, Enda, Mariani and Quorom.

In every direction the ground was strewn with dead, wounded and abandoned arms.

Among the objects found by Italian scouting parties were the radio and personal effects of Ras Kassa, the defeated Ethiopian commander, and a chest full of thousands of thalers.

Italian aviators flew their planes up and down the valley of Takkeze clearing up any resistance offered from the ground.

as matters now stand it will be withheld from stockholders by those in control of these corporations. In one year alone, the government will be deprived of revenues amounting to over \$1,300,000,000.

"A proper tax on corporate incomes (including dividends from other corporations), which is not distributed as earned, would correct the serious two-fold inequality in our taxes on business profits. In one year alone, the government will be deprived of revenues amounting to over \$1,300,000,000."

The present law, treasury experts said, makes it difficult for small business to be incorporated because of the corporation taxes in addition to personal income taxes paid by owners.

At part of the tax reform, the president also proposed that the present exemption of dividends from the normal tax on individual incomes be repealed.

Extended study of methods of improving taxes on income from business warrants the consideration of changes to provide a fairer distribution of the tax load among all the beneficiaries of business profits, whether derived from unincorporated enterprises or from incorporated businesses, and whether distributed to the real owners as earnings in profits and reinvested by them. The stockholders would have to report his paid tax on the income.

Treasury experts explained that the proposed new graduated tax for undistributed net profits would not apply to reserves accumulated in the past but only to income currently allocated to reserves.

They said, however, that any current income that was undistributed would be taxed regardless of the use to which it was put. They added, as an example, that if a corporation put \$200,000 of current income into expansion of plant this money would be taxed.

It was suggested that corporations might get money for expansion by issuing rights to stockholders and getting their consent to retain the profits for expansion purposes. The effect of this would be the same it was said, as though the money had actually been paid over to the stockholders and reinvested by them. The stockholders would have to report his paid tax on the income.

Income Tax In A Nutshell

WHO? Single persons who had net income of \$1,000 or more or gross income of \$5,000 or more, and married couples who had net income of \$2,500 or more or gross income of \$5,000 or more must file returns.

WHEN? The filing period begins January 1 and ends March 16, 1936.

WHERE? Collector of internal revenue for the district in which the person lives or has his principal place of business.

HOW? See instructions on forms 1040A and 1040.

WHAT? Four per cent normal tax on the amount of net income in excess of the personal exemption, credit for dependents, earned income credit, dividends of domestic corporations subject to taxation, and interest on obligations of the United States. Surtax on surtax income in excess of \$4,000.

Income-Tax Don'ts

DON'T prepare your return without first studying the instructions on the form.

DON'T procrastinate. Early assembling of data permits careful consideration of all tax problems.

DON'T destroy the memoranda from which your return was prepared.

DON'T omit explanation when such information is essential to an intelligent audit. Attach memoranda to your return.

No. 32. Checking Delinquents. The Bureau of Internal Revenue has at its command many sources for checking up delinquent taxpayers. One of these is the "information at source" provision of the revenue act, under which persons, "in whatever capacity acting," are required to report to the Commissioner of Internal Revenue at Washington, D. C., payments to another person of \$1,000 or more if the recipient of such payment is single. If the recipient is married, reports need not be made unless the payments aggregate \$2,500 or more.

The status of the payee is unknown to the payor, the payee is considered a single person for the purpose of filing an information return.

Fixed and determinable income includes salaries, wages, royalties, premiums, rent, interest, etc. A separate return of information for each employee is required of employers. The requirements are not limited to periodical payments, but a single payment must be reported. Corporations are required to make a separate report of dividends or distributions for each individual, fiduciary, or partnership holder who was paid \$300 or more during the calendar year.

All persons or organizations acting at any time during the year 1935 as broker or other agent in stock, bond, or commodity transactions (including banks which handle clearing orders for depositors' custodial accounts) are required to file returns of information on form 1100 with respect to all customers, depositors, or accounts for whom or which business was transacted during the year, and must show the name and address and other information provided for in the form.

Information returns are carefully checked with individual returns of taxpayers. Thousands of delinquent returns and additional revenue amounting to millions of dollars have been secured as the result of the examination of information returns.

about \$786,000,000. The message was expected some time today, although it might be delayed.

The committee arranged to discuss procedure within a matter of hours after receipt of the message. Professing confidence in their ability to put through any bill which the committee, administration leaders nevertheless asserted privately they expected the sternest sort of opposition from within the democratic rank and file.

Party members were not talking openly of revolt. But behind the scenes some of them grumbled that a \$786,000,000 tax bill would be packed with too much political explosives in a campaign year.

Two conventions met in Blomington, N. D., today to endorse

HUMAN HEARTS THAT HAVE QUIT BEATING MAY BE BROUGHT BACK TO LIFE FOR LABORATORY WORK

By STEPHEN J. McDONOUGH
Associated Press Science Writer.

DETROIT, Mich., March 3.—(P)—Human hearts which have stopped beating can now be brought back to life for study in the laboratory.

Dr. William B. Kountz of St. Louis, Mo., described to the American College of Physicians today how he had restored the hearts of 63 persons to approximately normal life and kept them beating in order to study their action as affected by various diseases and drugs.

Dr. Kountz did not explain his method of keeping the hearts alive but physicians attending the annual meeting of the society declared that it was probably an adaptation of the apparatus developed by Dr. Alexis Carrel of New York and Colonel Charles A. Lindbergh to keep many human tissues alive.

Thus far in his experiments, Dr. Kountz said, it has been possible to determine accurately the specific effects of drugs used

in the treatment of heart troubles and to measure the flow of liquid in the coronary blood vessels which supply nourishment to the heart itself.

It also makes possible studies of the heart under diseased conditions which cannot be investigated in experimental animals, he added.

The St. Louis physician obtained from individuals varying in age from still birth to 75 years of age. The ventricles, tubes leading into the heart, of all 63 contracted with a regular rhythm while 48 developed regular heart action and beat for a period of one hour or longer. Hearts of persons dead as long as six hours were revived successfully.

He found that the hearts of persons who died from chronic illness could be revived easier than those who died of acute infections and hearts of individual who died of tuberculosis of the lungs, intestines or spine revived more readily than those of any other group whose deaths were due to a single cause.

republican candidates for office, as a result of a split among non-partisan leagues, members of the dominant faction of the party.

Former Gov. William Langer was the issue. Harry Peterson, chairman of the state executive committee, sought "elimination" of the Langer influence, and called for new delegates to meet separately. However, the former governor's supporters claimed a majority of the delegates to the regular convention.

After Peterson's ally, other members of the committee announced his removal as chairman. In the first state republican convention of the current campaign, the New Mexico organization yesterday unanimously endorsed Gov. Alf M. Landon of Kansas for the presidency. However, the delegates recommended for the national convention will not be instructed.

Rep. Mott (R-Ore.) on the other hand, in a broadcast under the auspices of the republican congressional committee, that industrial recovery and farm solvency are "just where they were when the new deal came to power."

He attacked government advisers

CORSICANA, TEX., MAR. 6, 1936

A CHEERFUL DOCTOR

From Dr. Alexis Carrel of the Rockefeller Institute, Nobel prize winner and author and No. 1 medical scientist, comes reassurance as comforting as people could get from an old-fashioned family doctor. And really more hope than the old family doctor might give, because Dr. Carrel with his modern scientific resources looks farther ahead.

In health, as in other things, he says, in an American Magazine interview, "the Utopias of today are the realities of tomorrow." Man will never conquer death, but he can learn increasingly how to postpone it. He can profit much by rejuvenation, whose technique is rapidly improving. "By diet alone, mice have been made to live far beyond their normal span," he observes. "There are hereditary qualities, certain in modes of life, certain diets, certain mental attitudes, capable of promoting longevity."

Human beings can actually recreate themselves, starting whenever they like—at 40, 50 or 60. The way to do it is to use one's "adapting faculties." These faculties lie within us, usually dormant, and by neglecting them we get tired and unhealthy. "Use them," he says, "and you will be flooded with energy." He believes in the mind and its powers, as well as the body. He recognizes the creative power of will, thought and imagination.

Such an attitude tends to give worn and worried people something they need today along with their medicine and surgery.

FROZEN BUGS.

One good result of the prolonged cold spell, it is hoped, will be the killing of many insect pests which have increased in numbers during recent mild winters.

On top of that encouraging word, however, comes news from Moscow of a mosquito that survives the extreme cold of Siberia. In fact, several men in a group of scientists now studying the frozen Siberian soil were stricken with a tropical fever carried by the mosquitoes. The Siberian mosquito situation has now been turned over to the Soviet Medical Institute for study.

The frozen soil has yielded other surprises before this. It was in the same region that the eggs of infinitesimal shrimps—supposedly frozen for hundreds or thousands of years—were dug up, thawed out and hatched into living creatures.

It should not dispel all our hope that chinch bugs and other local pests have been killed by cold this winter. The Siberian creatures have long been accustomed to living in bitterest cold. Our own insects have been kept soft by mild winters.

Paraguay war veterans—the few of them who survived the fighting—have revolted and kicked out the peace settlement with Bolivia. Life is just one blameworthy thing after another for the Dove of Peace.

Congressman O'Connor and Father Coughlin have wisely decided that, after all, they had better conduct their political debate with their heads than with their feet.

Some voters this year will take a walk, and some will do a war dance, but most of 'em will just go to the polls and vote as usual.

JUST FOLKS

(Copyright, 1935, Edgar A. Guest.)

ALL IN THE DAY'S WORK.
"All in the day's work!" someone said.
"All in the day's work!" one replied.
And as to smile he turned his head
Somewhere that minute people died.

Somewhere that moment babes were born.
Somewhere were many suffering pain.
For some it was a wedding morn.
For others one of loss or gain.

Somewhere moved chance or accident.
To prosper men or dash them low.
Somewhere transpired the least event.
And greatest mortals live to know.

Somewhere were laughter, mirth and song.
Somewhere as swiftly moments fled.
Mankind encountered right and wrong.
"All in the day's work," as he said.

WAR MEDICINE

War seems to be the "patent medicine" of nations. It is strange how people cling, in spite of bitter experience, to the tradition that what Kaiser Wilhelm used to call a "fresh, jolly war" will be good for whatever ails them.

Kipling told, half a century ago, of Americans who, after telling how bad things were in this country, added that "what would do us a world of good would be a big European war." An American author who has just published a book telling what he finds Americans thinking says many insist that conditions will not be really better here until we have another war.

This, too, when we are not yet recovered from the prostration and misery into which we were plunged, after a few hectic years of false prosperity, by the last war.

War seems to be the "patent medicine" of nations. Italy has been dosing herself with it this winter, and several other nations, even while they condemn her, are reaching for the same bottle.

BRAGGING.

We Americans have always been good boasters, says Dr. Houston Peterson, philosophy professor at Rutgers. But we're failing a little. "In our early days we boasted in the future tense. During the 1920's we boasted in the present. Since 1929 our boasting has been retrospective."

Even during the depression, though, we kept up pretty well in spots. There was Huey Long, for example, who according to Prof. Peterson "carried the art of boasting to its finest flower," borrowing freely from the old masters and adding many a gem of his own. He might have boasted himself into the White House by 1940, if he had lived.

Then there was Dizzy Dean, who is still going strong, and Kingfish Levine, the boxer, who before Joe Louis suppressed him was saying: "Sharkey never hurt me. Nobody ever hurt the Kingfish. I can take it. I can dish it out. I got color and I got poisonality. I got everything." Hugh Johnson put on a very good performance, too. Now who'll be the next glittering example?

INCENDIARY AIR BOMBS

Fire, rather than explosive bombs, is the big danger from air attacks hereafter, says Prof. J. Enrique Zanetti, chemistry expert of Columbia University. A bomb of thermite weighing only two pounds could do much more harm than a huge gas bomb.

Such a bomb is simply made from iron oxide (iron rust) and powdered aluminum or magnesium. The two ingredients, when heated, set up a violent chemical reaction and make an intense fire, lasting for some time. A two-ton bombing plane could carry 2,000 of them. What would a few such cargoes do when showered over a city? All fire-fighting apparatus available would soon be exhausted. Flames breaking out in many quarters at once would quickly destroy an ordinary city.

Even this country, remote as it is from potential enemies in Europe and Asia, and having little to fear

"ISN'T IT ABOUT TIME YOU FELLOWS BEGAN BUILDING?"

By Chamberlain

**STARVING WARS.**

It seems extreme to some people when Senator Nye, in shaping up a neutral American policy for the future, urges an embargo on food to warring nations.

The suggestion, however, does not mean starvation for civilians. The United States would doubtless be found ready again, as it was in the last phase of the World War, to help feed needy noncombatants or needy soldiers who had laid down their arms. The proposal is to shut off actual munitions of war from belligerent countries, and to hold other exports, including foodstuffs, to normal peace-time quantities so that they cannot be used to prolong the war.

The primary purpose of any such legislation is not moral or punitive. It is defensive, calculated to avoid anything which might drag us into another foreign conflict. Yet such procedure, by discouraging warfare, might do much to prevent aggression and benefit civilization.

With all the argument about liberals and conservatives and the general disagreement as to who is or who is not one or the other, the definition given by the late James Harvey Robinson, American philosopher and historian, is worth serious study.

A liberal, according to Dr. Robinson, is one who believes in the possibility of conscious progress. A conservative is one who is not yet aware of it.

Both, under this definition, may have the same ideals of human welfare and social good. Their ideas of how to attain them may differ widely.

"Prejudice is the product of ignorance, and ignorance is the greatest of all dangers to democracy," says Newton D. Baker. But what are you going to do? They won't read and they won't listen.

from fellow-Americans, is not secure against such a peril. Every rational precaution against war, every friendly agreement with a foreign power, helps to protect us from attack.

The surest safeguard, however, against this and all other forms of fire peril, is fireproof construction. All business buildings, hotels and apartments should be as completely fireproof as possible. Houses, which are harder to make fireproof, should be built with as much space between them as possible, to keep fire from spreading.

Courthouse News**District Court.**

A verdict for the defendants in the case of Newell Tinkle vs. Albert Jenkins Tinkle, et al, partition, etc., was returned by the jury Wednesday morning. The case attracted considerable attention among residents of the courthouse community. The trial had been in progress for a week. Arguments of attorneys were completed Tuesday afternoon.

The criminal docket was scheduled to be taken up Wednesday.

District Clerk's Office.
The following case was filed: Mrs. Gussie Jones vs. J. C. Jones, divorce.

Warranty Deeds.
Mrs. Earl Robinson to Central Texas Securities Corporation, Lot 7, Block 312, Corsicana, \$500.
Conner Kirk, et ux, to Frank Aston, 6 2-5 acres of the S. A. Ross survey, \$100.

Assignments.
H. M. Coffield to Coffield and Guthrie, Inc., 1-2 interest in 53 acres of the Joseph Broyles survey, \$10.
H. H. Coffield to Coffield and Guthrie, Inc., 1-2 interest in 53 acres of the Joseph Broyles survey, \$10.

Marriage License.
Cecil Mangum and Dorothy Durbin.

Justice Court.
One was fined on a drunkenness charge Tuesday afternoon by Judge M. Bryant.

FOR JUSTICE OF THE PEACE, PRECINCT NO. 1, PLACE 2.
In another place in today's paper will be found the formal announcement of Jess M. Lamb as a candidate for the office of justice of the peace, precinct No. 1, place 2, subject to the action of the democratic primaries.

Mr. Lamb, formerly in the grocery business here, has resided in Corsicana for approximately thirty years, where he is well and favorably known. He is a married man of family. He is democratic chairman of Ward No. 1 which place he has held for a number of years. His friends feel that he is thoroughly competent to fill the office he seeks in a satisfactory manner and that he will put forth an honest effort in the performance of the duties attached thereto. He has never been a candidate for any office before.

The many friends of Mr. Lamb respectfully urge the voters of this precinct to give careful consideration to his candidacy when they cast their ballots for the important office of justice of the peace in the coming democratic primaries. (pol. adv.)

PURDON RETURNED GIRLS TOURNAMENT BY ANOTHER PROTEST**TWO BASKETBALL GAMES SCHEDULED AT FROST TUESDAY NIGHT**

Another turn of events in the somewhat muddled state of affairs of the Navarro county girls' basketball tournament, places Purdon back in the running, after they successfully protested Union High's eligibility, and were scheduled to meet Frost at 4 o'clock Tuesday afternoon.

Union High defeated Purdon in the first game at 9 o'clock last Thursday night, 23-10, but were playing what is known in interscholastic league rules and parlance as a "composite" team, and it was upon these grounds that C. G. Strickland, Purdon coach, protested Union High's eligibility. The winner of the Frost-Purdon game will play Bryan in another "semi-final" game at 8:30 tonight, to determine which team will meet in the final game at 8:30 Wednesday night on the Frost gymnasium. The loser of this afternoon's 4 o'clock game will play an exhibition game at 7:30 tonight against Navarro, and the loser of tonight's 8:30 game will play Currie for third place title at 7:30 Wednesday night.

Coach Strickland of Purdon was reported this morning to have entered a written protest to J. D. Warren, girls' basketball chairman, charging that Union High had played a seventh grade girl which classed Union High's team as a "composite" one, or one playing both high school and grammar school girls. The protest was upheld by Chairman Warren and Director General M. N. Boyd of Navarro county's interests in the University of Texas Interscholastic League. The tournament is not affiliated with the League, but is sponsored by Navarro county's members thereof, and is governed by the League's rules.

Plan Quick Action Get New Farm Plan Working in South

WASHINGTON, March 3.—(AP)—New deal officials headed for Memphis and Chicago today to hasten action under the new \$500,000,000 soil conservation-farm subsidy act.

With Secretary Wallace planning to join a farm meeting in the southern city Friday, emphasis was placed on the administration's urge for speed in taking 10,000,000 acres areas of cotton planting.

The AAA maintained secrecy on the details of the plans prior to the regional gatherings at Memphis and Chicago when the growers and officials will talk over plans for putting the program into effect.

After addressing the Memphis meeting, Wallace will go to Chicago to address the meeting there Saturday. Both meetings begin Thursday and end Saturday.

NAVARRO COUNTY JUNIOR GIRLS TO HAVE CAGE MEET

A Navarro county junior girls' basketball tournament to be governed by National Amateur Athletic Federation rules, is planned for Friday and Saturday, March 6, 7, and 10 on the Y. M. C. A. court, it was announced today by C. F. Broughton, physical director, and sponsor of the tournament. Entry is open to any school in the county, and each school may enter two teams if they desire.

Drawings will be made at 6 o'clock Thursday evening, March 5, in the Y. M. C. A. lobby, it was announced, and entries will be received up to 6 p. m., March 4 by Vee Griffith, chairman of the Y. M. C. A. physical education committee.

Each team will be permitted the use of not more than 12 players, and no player shall have reached her fifteenth birthday before Sept. 1, 1935.

Play will be on the straight elimination basis. A member of the tournament committee will draw for teams that do not have representatives present.

No protests shall be allowed. The entrance fee will be \$1 and must accompany the entry blank, and are due a day before the drawing.

The team winning first place will be given a trophy, and individual medals will be given players.

Games will be played so as not to interfere with school, Broughton pointed out.

Athens Airplane Hangar Destroyed

ATHENS, March 3.—Fire of unknown origin Monday destroyed the building used as an airplane landing field in South Athens.

The structure had been used the past two years as a storeroom. The building was erected in 1929 to care for airplanes that remained over night here.

BASKETBALL GAMES IN COUNTY GIRLS MEET POSTPONED

The schedule for tonight's games in the Navarro county girls' 1935 basketball tournament at Frost have been postponed until March 17 and 18 because several of the participating teams have large numbers of their players confined to their homes with measles, it was announced this afternoon by J. D. Warren, Bryan, chairman of Girls' basketball.

Mr. Warren said that several of the teams would be greatly handicapped by the loss of their first string players, and the committee had deemed it wise to postpone the tournament. He said he did not know of any schools that had an alarming amount of measles, and that he did not know of any that had closed on that account.

County Judge C. E. McWilliams of Corsicana, while the response is slated to be given by Ben Brooks, Kaufman county judge. Announcements and officers reports will be heard.

Legislature and Counties. "The Relation of the Texas Legislature to the County Government," is the subject of Joe Kellon Wells, member of the Texas Legislature from Navarro county, slated for 10:30 o'clock Friday morning. An address on the state tax survey will also be included on the program.

The convention will go to Trinidad Friday noon for a big barbecue, fishing and inspection trip at the Texas Power and Light company plant. Those desiring to return early will do so and can play golf at the Corsicana Country Club.

Picture show entertainment will be given Friday night. Harry Hines of Wichita Falls, chairman of the Texas Highway commission, will be the principal speaker Saturday morning. The program will be opened by an invocation given by Rev. E. T. Miller, pastor of the First Baptist church, Mrs. R. N. Elliott of Corsicana will render vocal numbers.

Discussion Salary Law. After the address of the chairman of the highway commission, a round-table discussion of the new salary law will be led by President Colvin. Election of officers for the ensuing year, the selection of a 1937 convention city and other matters of business will be considered. It is expected the convention will adjourn about noon, Saturday, Mar. 28.

The local arrangements and reception committee is composed of C. E. McWilliams, Navarro county judge, chairman; A. F. Mitchell, Ted B. Ferguson and County Commissioners Jack Megarity of Corsicana, A. W. McClung of Kerens, W. M. (Moss) Roberts of Dawson, and J. Wesley Harris of Blooming Grove.

Pleasant Grove. Next Sunday is regular preaching day at Pleasant Grove. Since the bad weather, sickness and other things have interfered with the attendance, I am exceedingly anxious to meet all the members and friends of the church next Sunday, both at 11 a. m. and 7:30 p. m. Since our spiritual welfare should be our highest concern, let's not neglect it. Hoping to see you all Sunday. H. B. CLARK, Pastor.

Still Coughing?

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled. Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

MOTHER-IN-LAW

(Continued From Page One)

mother-in-law jokes are reprinted and few are retold in this community, and there is less domestic discord in this city than in any place in the country. The move to honor instead of ridicule the backbone of our American family life has brought about a most "crucial" custom that has survived the horrors of the medieval ages has been our willingness to over-eulogize our mothers and to belittle our mothers-in-law. An angel of a woman does not become a shrew and a busy-body, or a devil in skirts and a home wrecker simply because she has a daughter or son who marries.

Mother-in-Law Great Asset. Our mothers-in-law on an average are far more useful than the fathers-in-law. The greatest asset a young couple can have is a mother-in-law. The only thing better would be two mothers-in-law. Statistics will show that where there is one or more mothers-in-law on the job a young married couple has a far better chance of sticking it out.

For every mother-in-law who has broken up a home there are a hundred who have held homes together.

The reason for the drop in the divorce rate in Amarillo is that when it became respectable for mothers-in-law to be seen in the front room of the home to act as family affairs, their influence for good results in happier homes and better behaved children. It is a positive fact that the divorce rate in Amarillo has dropped 20 per cent since the movement was inaugurated. What the whole world needs are more mothers-in-law instead of less.

Governor Allred In Fitting Tribute

AUSTIN, March 5.—(P)—Governor James V. Allred formally paid tribute to mothers-in-law everywhere today for their service to young woman and manhood of the nation. In his proclamation officially

County Singing Convention Will Meet at Pursley

The Navarro county singing convention will meet at Pursley, Sunday, April 6. A large number of out-of-the-county singers are expected to attend.

J. O. Sessions of Bazette is president of the convention. Roy Neece of Corsicana is secretary.

designating the day as "mother-in-law day," part of a state-wide observance, he called on all men to honor their mothers-in-law.

"The place of mother-in-law is a notable one in American life because of the sympathy, long suffering and expensive help that she has given to the newly wed of every generation," the proclamation said.

"She has occupied in past years that place in our affections which might be designated as between tears and laughter. The world is not worthy of her patience, charity, sympathy and wise guidance which has blessed the lives of timorous young men newly wed and brave young women but recently entered into the experience of matrimony."

The Mother-in-law Club at Amarillo, where the idea originated two years ago, planned a luncheon with members of other mothers-in-law clubs of the section as guests.

Just Acquired Mother-in-law. AUSTIN, March 5.—(P)—Governor James V. Allred's proclamation setting aside today as "mothers-in-law day" was drafted by a secretary who had just acquired a mother-in-law. The secretary, George Clark, married Saturday.

ITALY

(Continued From Page One)

reference to the league suggestion for an immediate cessation of hostilities.

Italy's attitude toward this subject was described in two points: 1. It would not be possible to halt hostilities from one day to another, as though the war were a stage drama. Thus, a decision on this point probably would be left to Marshal Pietro Badoglio, commander-in-chief of the Fascist forces in East Africa.

2. A cessation of hostilities would permit Ethiopia to carry out what Italy contends is its usual policy of procrastination and deviation during negotiations, thus destroying the effect of Italy's recent heavy blows on the northern and southern fronts.

The authority who outlined these views pointed out, however, that Italy was still studying the peace appeal, pending its final answer. While Premier Mussolini's government still studied its formal reply to the proposal, dispatched last Tuesday, Under-Secretary for Foreign Affairs Emilio Suvich and the Austrian prince Ernst Von Starhemberg surveyed the relations of their two nations, and the European situation as it affected them, in a one-hour conference.

These conversations formed a prelude to a conference this afternoon between the Austrian vice-chancellor and Il Duce. Every effort was being made by Austrians and Italians alike to lend to Von Starhemberg's visit the simple aspect of a inspection of Italy's Fascist black-shirt militia.

FOR REPRESENTATIVE 60TH DISTRICT

In announcing my candidacy for re-election as Floterial Representative from the 60th District, composed of Hill and Navarro counties, I do so with a deep sense of gratitude to the citizens of these two counties for the past favors they have bestowed upon me and for the confidence they have reposed in me.

Legislative records are voluminous and defy condensation. It would be impossible here to fully review my own legislative record. It does not lie within the realm of human achievement to please everyone. The most a legislative servant of the people may hope to do is to represent the wishes of the majority of his constituents where those wishes are known, and to exercise his best judgment for the welfare of his constituents and his state when those wishes are unknown. This I have tried to do; whether I have succeeded in some measure can best be judged by you.

Platforms in Legislative races are of small moment. Frequently, issues which appear to be of vital importance during the primaries have faded into insignificance by the time the regular legislative session is convened, and other and greater problems have forged to the front demanding solution. Such changing times and conditions require, primarily, a conscientious pledge of active and honest devotion to duty. To this aim I commit myself. It has never been my policy, however, to "straddle the fence" or to avoid taking a position on any question of public interest, and I stand ready at any time to give my position on any public question to any constituent.

If you feel that my past service deserves your commendation, I respectfully solicit your continued confidence and support. (political advertisement)

HOUSE COMMITTEE, TREASURY EXPERTS START TAX SURVEY CONGRESS DIVIDED INTO BITTERLY WARRING CAMPS OVER REVENUE BILL

By DOUGLAS B. CORNELL Associated Press Staff Writer.

WASHINGTON, Mar. 4.—(P)—A house ways and means sub-committee and treasury financial experts today canvassed possibilities of meeting President Roosevelt's day-old tax suggestions with a levy averaging 33-1-3 per cent on undistributed corporate surpluses.

As discussed behind closed doors, no portion of the surpluses would be exempt. President Roosevelt yesterday drew a distinction between surplus and reserve set up to cover depreciation and working capital.

Chairman Samuel B. Hill (D-Wash.) said after the committee meeting, however, it was the "general understanding that banks and fiduciary corporations such as life insurance companies would be exempt."

He added that "it is contended" such a program would not prevent corporations building up reserves.

The committee began its preliminary survey of the sweeping tax proposals, in which Mr. Roosevelt seeks to raise \$620,000,000 annually for farm subsidies and the soldiers bonus, as congress divided into bitter warring camps over the revenue request.

The president's suggestion was repeal of the present corporate tax system and substitution of a plan that would dip into undistributed corporate surpluses and stockholder dividends.

Since corporations now are paying around 16 per cent taxes on their net income, Hill said, they could hold back about half of their net earnings for surplus and undistributed dividends, and still pay no more taxes than at present.

WASHINGTON, March 4.—(P)—Powerful Democrats hinted today that congress may make drastic changes in President Roosevelt's tax program, under which the government would dip into corporate profits and stockholder dividends to pay a \$620,000,000 annual bill for farm subsidies and the soldiers bonus.

Congress swiftly divided into bitterly warring camps over the president's suggestion of a sweeping revision of the corporate tax structure.

Some Republicans assailed the plan as an "assault on thrift and a menace to business confidence; some Democrats also frowned on it."

New Dealers hailed it as a means to speed the velocity of money turnover, force distribution of wealth and hasten recovery.

Administration leaders emphasized that the plan was only a "suggestion" to congress. As a seven-man house ways and means sub-committee gathered to discuss the proposal behind locked doors, there was much talk in congressional corridors of revisions in the program.

Congress was still somewhat stunned over the breadth of the proposal. The president suggested that present corporate income taxes and other related levies be wiped out. In their stead he would slap a drastic tax on profits which corporations hold in their treasuries as surplus instead of distributing as dividends.

Might Average 33-1-3 Per Cent.

Administration advisers indicated this graduated tax might average 33-1-3 per cent. This, it is held, would tend to drive stock funds into the hands of stockholders as dividends. (Stocks jumped \$1 to \$5 a share in New York yesterday.)

STATE BASKETBALL TOURNAMENT STARTS IN AUSTIN FRIDAY EIGHT TEAMS TO BATTLE FOR TITLE WITH NEW CHAMPION CERTAINTY

AUSTIN, March 5.—(P)—Eight teams, representing an original field of 1,500 entries, will enter tournament play tomorrow for the state basketball championship of the University of Texas interscholastic league.

Only one of the eight teams, Taft of San Patricio county, participated in last year's tournament while three of the teams were virtually unknown and were in the championship fight for the first time. They were Carey of Childress county, Crews of Runnels county and Cushing of Nacogdoches county.

The other four teams, Dallas Tech, Jeff Davis of Houston, El Paso and Austin each have participated in several tournaments.

A new champion was inevitable. Denton, 1935 titleholder, was eliminated in the regional tournament by Waco, 13 to 11. Waco fell in the finals before Dallas Tech, 19 to 10.

Several Impressive Records.

Carey, Crews and Cushing scored impressive victories to win the regional titles. Carey defeated Pampa, 32 to 26; Crews downed Forsan, 43 to 24, and Cushing triumphed over Grob, 30 to 23.

Austin went into the championship round by virtue of its easy victory over Del Rio, 40 to 20. Jeff Davis defeated Comal, 35 to 22; Taft trimmed Lufkin 37 to 33, and El Paso nosed out Fort Stockton, 28 to 27, in other regional championship games.

The tournament will get under way at 2 p. m. with Cushing playing Taft. Carey will play Dallas Tech at 3:15 p. m. Crews will match goals with Jeff Davis at 7 p. m., and Austin will tackle El Paso at 8:15 p. m.

The semi-finals will open at 10:15 a. m. Saturday with the second game scheduled for 11:30 a. m. The championship game will be played at 8:15 p. m. and will be preceded by a consolation game between the losing semi-finalists.

Is Skyscraper Losing Favor?

New York Architectural league's current silver jubilee exhibition serves to review the momentous contribution America has made to the art of building design as well as mark the 50th anniversary of the league. When the league came into existence, architectural style was dominated by the baroque and rococo, buildings were almost universally on the palatial style, such as the old Waldorf-Astoria, and homes were ornate. America's contribution to architecture has been mainly in the development of the skyscraper, of which one of the finest examples is New York's Rockefeller Center. Although Europe has been ahead of America in the pioneer field of modernistically designed homes, the honors are being evened by a sizeable number of visionary designers who have made rapid strides in this field. The present accent appears to be on the horizontal line and away from the towering skyscraper.

REPUBLICANS AGAIN TALKING OF COALITION WITH ANTI-NEW DEAL DEMOCRAT MALCONTENT

By LEONARD B. SHUBERT Associated Press Staff Writer.

WASHINGTON, March 4.—(P)—Renewed republican talk of a coalition with anti-administration democrats arose today on the new deal's third anniversary.

Charles D. Hilles, republican national committeeman from New York, declared "There is much merit in the suggestion of utilizing in important roles thoroughly competent democrats who are courageously resisting the President and his destructive doctrines."

Hilles' remark recalled a suggestion by Senator Vandenberg of Michigan in a Lincoln Day speech. Vandenberg invited "Jeffersonian" democrats to join republicans against President Roosevelt during the campaign and "in the council chamber after next November's victory is won."

At the time Rep. Snell (R-NY) the minority leader, frowned upon that suggestion. Chairman Henry P. Fletcher of the republican national committee, said he had declared in a coalition but declined to discuss it.

Another political development discussed today was the appearance of eleventh hour opposition to "Tammany's designation of Alfred E. Smith as a delegate to the democratic convention" from which he has threatened to "take a walk" if the new deal is endorsed.

Before filing time expired at midnight Joseph O'Neill, Staten Island lawyer, filed a petition nominating himself from the 11th New York congressional district. Smith and William A. Fetherston had been designated from that district, which embraces not only

today as traders heard of the president's message).

Once in the hands of stockholders, the money would be subject to the normal income tax rate of 4 per cent and the graduated surtax. At present a stockholder pays only the surtax on income from dividends.

The net result, the president argued, would be a \$620,000,000 gain in federal revenue, with which to support the \$500,000,000 farm subsidy program and to amortize the additional cost of paying the bonus now instead of in 1945.

So intense was the discussion of these points that comparative little attention was paid for the time being to other points in the president's message. He suggested that \$500,000,000 be obtained over two or three years by a special tax to retrieve AAA processing levies which were refunded to processors and by new excises on the processing of farm commodities.

Roosevelt Explains.

President Roosevelt was quick to declare in a press conference that the proposed taxes on corporate profits would not apply to reserves set up to cover depreciation and to provide working capital.

What he aimed at, he indicated, was profit which is held by corporations in the form of surplus. He argued this was a means of escaping taxation and was unfair to small stockholders who need the dividend money.

Assailing the president's plan on the house floor, Rep. Snell of New York, minority leader, said "accumulated surpluses enabled many corporations to carry on and give employment."

The president, talking on this point, said reserves would not be taxable and could be used in lean years to pay wages or dividends. One aim of the program, he said, is to increase the velocity of money.

FAST AND IMMEDIATE EXPANSION OF ARMY, NAVY, AIR FORCES

BUILDING UP MILITARY AND ECONOMIC DEFENSE PLANNED AT ONCE

By CHARLES P. NUTTER (Copyright, 1936, By Associated Press.)

LONDON, Mar. 3.—Great Britain's government announced today a vast immediate expansion of its army, navy and air forces and industrial mobilization for instant readiness in case of war.

A white paper, or government report, said the rearmament and increased national defenses were made necessary by complications of the international situation, combined with a "deplorable and undeniable" worldwide expansion of armaments.

The United States, Germany, Belgium, France, Italy and Soviet Russia were listed as having embarked already on similar plans.

Citing "dangers of war" and proclaiming a necessity for means of defense against aggression and enforcement of collective security, the white paper disclosed:

"A fresh examination of the position, made last summer and autumn, led to the conclusion that it was necessary to make further changes in the royal air force and speed up measures contemplated for modernization of the army and navy, to provide as rapidly as possible necessary reserves of stores of ammunition and equipment and organize industrial resources of the country in such a way as to allow immediate expansion of productive capacity in case of an emergency."

Parliament will debate the white paper next week.

Prime Minister Stanley Baldwin will name a new cabinet minister as deputy chairman of the imperial defense committee to supervise, co-ordinate and control the huge armament expansion.

Problem Differs.

"The problem before us differs materially from that with which we were faced in the great war," the government announced, pointing out that the Italo-Ethiopian conflict showed claims on British defenses on various parts of the world.

The urgency of Britain's rearmament was emphasized by the announcement that the government would attempt to prevent emigration of arms and munitions industry but that "it will be important, however, to see that the work is not delayed by over-elaboration of financial safeguards."

The government conceded virtual collapse of naval limitations as regulated by the Washington and London treaties, denounced by Japan and expiring at the end of this year.

Little Benefit Expected.

So far as political speech-making is concerned, there was a lull yesterday and today. New dealers were silent for the time being, while preparing addresses for future delivery. In the opposite camp one of the few speeches was given by Rep. Eilton (R-Ohio), who attacked the new deal as "a reckless ride to ruin."

"Thoughtful men and women x x x are becoming aware that it is subversive to our form and the theory of government," he said.

Supporters of Senator Borah (R-Ida) went on in New York with their fight to "liberalize" the republican delegation to the national convention.

Staten Island, but part of lower Manhattan including Smith's old district. The opposition will be carried to the primary election.

DRASTIC SLASH IN AMOUNT FOR RURAL ELECTRIFICATION

NORRIS COMPROMISE BILL QUICKLY MET WITH SUBSTITUTE BY SENATOR KING

WASHINGTON, Mar. 4.—(P)—Before the compromise \$420,000,000 rural electrification bill had taken a half dozen steps on the senate floor today, Senator King (D-Utah) introduced a substitute to trim the 10-year program to \$100,000,000.

The substitute came in direct conflict with the measure shaped by Senator Norris (R-Nebr) and administration aides at a white house conference yesterday. It proposed a number of other drastic changes in addition to the reduction of expenditures.

Where the Norris bill would authorize \$500,000,000 a year for the next two years and \$400,000,000 a year for the next eight, the King bill proposed only \$100,000,000 a year for ten years.

It would limit the duration of loans for generating and distributing systems to 25 years. The Norris bill had first proposed 40 years but was amended on the floor today to make the limit 25.

Moreover, the King bill proposed to limit to \$10,000,000 the lending authority of the present rural electrification administration, set up by the president, and transfer it entirely next June 30 to the new administration.

Both bills provided for loans to rural communities, co-operatives, and limited dividend corporations for furnishing power to rural areas not now supplied with power.

Already trimmed down in conference from an initial billion dollar estimate, the Norris bill had not been expected to attract much opposition.

Senator Vandenberg (R-Mich), however, attacked a proposal to obtain the first two years' allotment from the reconstruction finance corporation rather than by direct appropriation. Vandenberg, who says congress should control such allotments, called the proposal "more of the black magic."

Compromise on the amount to be spent was reached yesterday after a conference between Norris and administration officials.

"The president expressed satisfaction with the modified bill, it now would provide \$500,000,000 a year for the first two years, and for the remaining eight years, a \$400,000,000 a year. The original plan called for \$100,000,000 annually for ten years."

Curb Firm.

NEW YORK, March 5.—(P)—Striking gains in specialties and some of the metal shares gave the curb market a steady firm appearance today.

Dow Chemical bounded up 9 points to 121 on a small turnover and Aluminum Co. closed its gain another 3 points to 148.

Lake Shore Mines was sensitive to small selling orders but was well supported around 56, where it was 3-8 of a point net lower.

year for the first two years, and for the remaining eight years, a \$400,000,000 a year. The original plan called for \$100,000,000 annually for ten years."

Bitter Fight Forecast for French Elections

Recent attempts to disband Fascist organizations such as the Croix de Feu and the turmoil which followed the assault on Leon Blum, Socialist leader, by Royalist sympathizers presage an unusually bitter and turbulent time during general elections in France. Rightist factions are advocating a stronger centralized government, hoping to end the political turnover which has resulted in 11 cabinets in the past four years, while Leftists are attacking the Bank of France and financial powers as the enemy of prosperity in attempting to obtain their share of the 600 places in the chamber of deputies. Pierre Laval and Pierre Flandin, both former premiers; Leon Blum, Socialist leader, and Albert Sarraut, present premier, are key figures in the chaotic political setup.

CARRIER STOCKS MAIN ISSUES FOR BULLS ON THURSDAY

NEW YORK, March 5.—(P)—Gains of 1 to around 4 points were recorded in today's stock market by selected rails, merchandise, farm and specialty issues. The forward push occurred in the face of profit-taking in various sections of the list. Extremely dull periods, also, accompanied the upturn. The close was firm. Transactions approximated 2,650,000 shares.

By VICTOR EUBANK Associated Press Financial Writer

NEW YORK, March 5.—(P)—Strength of carrier and specialty stocks was the principal bullish influence in today's market. There was a little profit taking in a few of the steels, motors, utilities and mines, but selling apparently was not of an urgent character.

Up to the approach of the fourth hour the volume of transactions was considerably under that of Wednesday.

Share gainers of 1 to around 3 points included Union Pacific, Santa Fe, N. Y. Central, Case, International Harvester, Deere, and Marshall Field.

Chrysler, General Motors, U. S. Steel, Bethlehem, U. S. Smelting, Western Union, North American, Cerro de Pasco and a number of others were off fractions to a point. The oils were slightly improved.

U. S. government securities and rail bonds edged higher. Commodities were irregular, but quiet. The dollar was steady in foreign exchange markets.

Wall Street opinion on the tax question was still divided and some commission house customers were said to have adjourned to the sidelines pending final congressional action on the president's revenue program.

HOLLYWOOD SIGHTS & SOUNDS

By ROBBIN COONS

HOLLYWOOD — Males who are vain about their hair lines had better stay out of pictures. Signing a contract for an actor, is equivalent to deciding to let the studio all rights to his skull-cap.

The actor has to shun the barber until he has talked over his prospective haircut with producer, casting director and cameraman. Some actors go through picture after picture and never wear their own favorite trim.

Dick Powell, for instance, has been himself—hirsutously speaking—in only three or four pictures. For others he has let his hair grow long to be curled, had it cut short according to Annapolis and West Point requirements, has grown sideburns and worn it medium-length—each time to the dictation of somebody else. In case you're curious, the Dick Powell haircut of "Colleen" is his own.

Like most actors, Dick shaves himself, and he has to be very careful. A slip of the razor might change the established hairline during the making of a picture.

Muni's Poor Scalp

Paul Muni's scalp never knows what is coming next. He moved his front hairline back more than an inch to attain the higher forehead of "Louis Pasteur," and kept that part of his forehead shaved every day for more than six weeks of production. He dyed his hair blonde for one picture and black again for another. For "The Goo" Earth's his head will be shaved.

Freddie March is a brunette again after "Anthony Adverse," for which he was a blonde. Donald Woods has had his hair curled for three pictures during the past year. Charles Chaplin's hair is nearly white again after being dyed black for his latest film.

Wallace Beery's haircuts vary from close crops, with much pate showing, to sideburned elegance. James Cagney has worn it long and curly, short and straight. In "Jimmy the Gent" his close-cropped head showed scars.

Wigs Hide Shorn Plates

Even the actors who wear wigs or their roles—like Errol Flynn in "Captain Blood"—don't call their hairlines their own. To wear a wig at all effectively the hair must be cut very short underneath. George E. Stone had a close shave in order to wear the "cat-man" make-up of Sancho in "Adverse."

Of course the make-up men can do and repair slips of the razor and slips of memory. Oscar Polk, the negro "Gabriel" of "The Green Pastures," didn't know about the no-haircut-without-consultation rule. He appeared on the set one day with the evidences of broad-day shearing. He always gets a haircut every two weeks, he explained when conversation broke forth. Pere Westmore, the make-up chief, remedied the damage, but Oscar was reminded not to repeat during production.

THE STORE WITH THE GREEN FRONT

SOVIET DICTATOR DECLARES MONGOLIA WILL BE PROTECTED

AMERICAN NEWSPAPERMAN
GIVEN IMPORTANT INFOR-
MATION BY JOSEPH STALIN

NEW YORK, March 4.—(P)—Russia under Joseph Stalin is ready to war with Japan if necessary to preserve outer Mongolia's independence, the Soviet dictator said in an interview given Roy W. Howard, chairman of the board of Scripps newspapers and published today under a world copyright by the New York World-Telegram.

"If Japan ventures to attack the Mongolian peoples, the public and seeks to destroy its independence, we have to be able to help that republic," Howard quoted Stalin as saying in reply to a direct question.

The interview was held in Stalin's office in the Kremlin, in Moscow, and lasted for three hours, in which the soft spoken Soviet leader discussed the far East situation, particularly the war threat, the possibility of war in central Europe, and Soviet-American relations.

"Neutral military observers believe Japan is seeking to drive a wedge into outer Mongolia by way of Manchoukuo, intended to block off assistance for the Soviet by way of China proper in the event of war," Howard commented.

"With possession of Ulan Bator, the capital of outer Mongolia, the Japanese air forces would be in an advantageous position to threaten the trans-Siberian line at one of its most vulnerable points."

"Would a Japanese attempt to seize Ulan Bator make positive action by the Soviet Union necessary?" Stalin was asked.

"Yes," he replied.

"Have recent events developed any new Japanese activities in this region which have been construed by the Soviets as of an aggressive nature?" Howard continued.

"The Japanese seem to be continuing to concentrate their troops on the frontier of the Mongolian peoples' republic," he quoted Stalin as replying, "but so far there have been no new attempts to create border incidents."

Stalin, recalling that red troops supported the Mongolian revolution against Japanese assistance, said that as an aftermath of the Russian revolution, asserted, Howard wrote that:

"We would help that republic as we did in transition from far east to Middle Europe, Howard and Stalin discussed the possibilities of German aggression against Russia."

"The Soviet Union appears to believe that Germany and Poland have aggressive designs against the Soviet union and are planning military co-operation," remarked Howard in constructing the next question.

"Poland, however, has protested her unwillingness to permit any foreign troops to use her territory as a base for operation against a third nation. How does the Soviet Union envisage such aggression by Germany? From what position and in what direction would the German military forces operate?"

"Seek immediate State," Stalin replied, "that when a state is intent on war against another state, even one not adjacent, the aggressor seeks an intermediate state whose frontiers touch those of the object of her aggression."

"Usually it is successful in finding such a frontier."

"This is accomplished sometimes by force, as in 1914 in Belgium, or by other means, as in 1918, when the Germans 'borrowed' the Latvian frontier in a drive against Leningrad."

"It does not know what specific frontiers would be best adapted to the German purposes, but I think they would find a people prepared to lend them a frontier."

"It is impossible to say" with the next word will come, Stalin asserted.

"Nowadays wars are not declared. They simply start."

Japan-Germany Danger Points. He asserted Japan and Germany were the focal points of war danger.

"Where are the clouds more menacing, in the east or in the west?" Howard inquired.

"It is difficult to say," was the answer. "They both exist and both are smouldering."

"Compared to either of these, the Italian-Ethiopian conflict is an episode."

"For the moment, perhaps, the situation in the Far East is more menacing but the center of danger may shift to Europe."

It is symptomatic that even when Herr Hitler speaks peace he cannot dispense with threats.

Stalin, genial, without dramatics, displaying little of the power that makes him supreme in the land of 173,000,000 people, declared in simple, straightforward language that capitalism furnished the chief war menace today.

Derricks Split Oklahoma City

Gov. E. W. Marland

Derricks invade Oklahoma City

Oklahoma City is embroiled in a bitter internal fight in which the citizens are arrayed under the contrasting banners of commercialism and of civic pride, a division of citizens which resulted when oil was discovered in the very shadow of the state capitol. As the invading march of derricks continued to encroach upon the exclusive residential district and even the mall, the more esthetic-minded citizens rose up in protest. Their efforts to halt the march of the derricks have met with defeat, however, at the hands of oil companies and residents of the city who are awayed by visions of tax reductions resulting from leasing oil-bearing public property. Gov. E. W. Marland, himself a veteran oil operator, now has announced his intention of obtaining revenue for the state by drilling on the mall and other public sites despite bitter protests, rather than let outlying private wells drain the oil pool which lies beneath the capitol building.

FARM ADMINISTRATION HEADS SEEK SPEEDY INAUGURATION OF NEW PROGRAM; PLAN OUTLINED

President Starts Third Year, But It Will Be Short

WASHINGTON, March 4.—(P)—This is the third anniversary of President Roosevelt's inauguration, but considerably more than three quarters of his term has expired.

His present term will end at noon Jan. 20, 1937—less than 11 months hence. This is because of the Norris "lame duck" amendment to the constitution which was adopted in 1933. It shortens the interval between the national election and the date when Congress and the president take office.

After the present, shortened term, presidents will again serve full, four-year terms.

LOBBY COMMITTEE TO ENGAGE SPECIAL COUNCIL FOR TEST

SILAS STRAWN SECURED RE-
STRAINING ORDER STOPPING
SECURING TELEGRAMS

WASHINGTON, March 4.—(P)—Rep. Wadsworth (R-NY) protected in the house today against the reported mass seizure of telegraphic correspondence by representatives of the communication commission.

He said that he had been told that "the seizure of telegrams" had been seized by clerks of the commission for the senate lobby investigating committee.

"It strikes me we have reached a strange stage in the development of democracy when private correspondence can be seized without court procedure or a search warrant," Wadsworth declared.

His protest coincided with employment of Crampton Harris of Birmingham, Ala., as special counsel to represent the lobby committee in a court test with Silas H. Strawn over a blanket subpoena for his law firm's telegrams.

Strawn is a member of the Republican finance committee and a former president of the chamber of commerce of the United States.

Chairman Black (D-Ala.) of the investigating group said Harris formerly was his law partner.

WASHINGTON, March 4.—(P)—Engagement of special counsel to represent the senate lobby committee in a court test with Silas H. Strawn over a blanket subpoena for his law firm's telegrams was planned today by Chairman Black (D-Ala.)

Black would not give the name of the attorney pending a discussion of procedure with his committee. The subpoena in question was issued to the Western Union Telegraph company.

Strawn, former president of the chamber of commerce of the United States, secured a temporary injunction from the District of Columbia supreme court Monday.

A hearing is scheduled tomorrow on whether it should be made permanent.

"There appears to have been a concerted effort by those who seek to influence legislation behind the scenes, through subterranean channels, to prevent us from getting evidence," Black told newsmen today.

"We have already seen that the Associated Gas and Electric company and the Cities Service com-

(Copyright, 1936, By Associated Press.) CHICAGO, March 5.—(P)—Government officials came to Chicago today to outline details of new farm program before midwestern agricultural leaders.

As three day meetings convened simultaneously here and in Memphis, Tenn., to hear the first detailed exposition of the project, Secretary of Agriculture Wallace's representatives sought the speed necessary to put it into operation before the planting season.

Pending official disclosure, authoritative sources said the plan to be put forward under the new \$500,000,000 soil conservation act adopted when the AAA was invalidated would take this form:

Approximately the same acreage for the major crops will be retired as the AAA specifications for 1936 called for the retired land to be sown to such soil-building crops as alfalfa, sweet, red or mammoth clover, alsike, lespedeza, blue grass, and soy beans for hay, but not for seed.

The farmer will choose which crops he will put into the retired acres, co-operation being entirely voluntary. No contract will be made. Proof of co-operation with the plan, on the word of a town's committee, will entitle the farmer to rewards.

Benefit checks will be substantially less than those prevailing under AAA. The figure for retiring land of high fertility may be \$5 to \$10 an acre.

The checks probably will be paid at the end of the growing season. A flat rate will be paid, not varying among crops.

Edward A. O'Neal, president of the national board of directors of the American farm bureau federation planned to attend the three-day session here with President C. E. Huff and directors of the farmers national grain association.

Union High Girls Basketball Team BEEN REINSTATED

FROST, Mar. 5.—(Spl.)—Union High girls' basketball team, which has been ousted several times in the 1936 Navarro county basketball tournament, has been re-instated in the contest and will be permitted to play all of its games over Tuesday afternoon.

Union High defeated Purdon 27-8 on the afternoon of Tuesday, March 4, and the winner will play Bryan tonight to determine who will meet Barry in the final game on the night of Wednesday, March 18. The loser of the Tuesday night game will play Purdon for third place consolation title.

In their first game, Union High defeated Purdon 23-10. In their next game they eliminated Rural Shade 33-9, but it is not likely that Rural Shade will return to the contests. Union High then defeated

many have failed to produce evidence we wanted."

"I don't know how many telegrams, letters and memorandums we have subpoenaed. I have found a striking similarity in the disappearance of papers. We have discovered many written evidences of activities to influence legislation outside the companies involved. I suppose I have talked with every department of the government that has to do with communications, about our task."

"In many cases responses to our questionnaires have stated that certain evidence was missing but we found it in other places."

ORDINANCE LEVYING OCCUPATION TAX ON MARBLE MACHINES

PENALTIES ARE PROVIDED
IN NEW LAW FOR FAIL-
URE TO PAY TAX

An ordinance levying an occupation tax on all coin-operated marble machines in the city of Corsicana was passed for its first reading at the meeting of the city commission Tuesday afternoon.

Mayor J. S. Murchison presided at the session with Commissioners R. C. Curtis, John P. Garitty, Edgar Rittersbacher, and M. F. Garrett in attendance. Minutes of the last session were read and approved.

Reports of officers for the month of February were received and ordered filed as follows:

Sanitary engineer: Milk analyses 15, dairy inspections 12, water and sewage analyses 14, sanitary inspections 12; health certificates rendered 8.

Receipts from the office of the city engineer \$19.

City sexton: Graves dug \$125; lots sold \$125.

Corporation Court. Records of the corporation court: \$386 in fines and costs in 79 cases including intoxication 29, intoxication and disturbing the peace 5, intoxication and resisting arrest 1, right turn on red light without coming to stop 22, running red light 5, reckless driving 4, running over stop signs 4, parking on fireplug 1, running over fire hose 1, blocking alley 1, failing to give right of way to fire truck, theft 1, affray 2.

Chief of police: Total fines and costs \$386 in 79 cases, one fine of \$5 appealed; worked \$18, collected \$363.

Receipts from water collector: \$7,412.68; sanitary collector, \$208. Receipts from tax collector \$115.40.

Fire chief: Number of alarms 44, insurance \$13,775; loss \$16,530. Monthly bills approved.

Relief fund presented, approved, and warrants ordered drawn in payment, including general fund—administrative \$609.69; fire department, \$52.02; police department, \$32.58; sanitary department \$32.22; light \$193.87; street fund \$103.33; cemetery fund \$2.08; water fund, \$1,074.46; dam improvement fund, \$178.63.

Dr. Curtis, street commissioner, reported that he understood that the new street maintainer had arrived and that he planned an inspection of the new equipment following the meeting.

Commissioner Garrett reported considerable complaint about the high water bills, but supposed the department was working along all right. Some trouble with the pumps at Lake Halbert was reported.

Commissioner Garitty reported that all was satisfactory in the police and fire departments. Transfer of \$1,000 from the water fund to the dam improvement fund was authorized by the commission.

Marble Machines. An ordinance levying an occupation tax on coin-operated marble machines, which defined machines, owners, and set the license fees at \$10 for machines using coins over 5 cents, and \$5 per year for machines using 5-cent pieces or less, penalties were provided for failure to pay the tax. The ordinance was passed for its first reading unanimously after the city attorney had explained the statute was modeled after the state law.

He explained that a license fee could not be justified in Corsicana although it could in the larger cities.

The delinquent tax rolls for the year 1935 were presented by Tax Assessor-Collector J. M. Pugh and were approved by the commission. The mayor reported that he had received a request for permission to move a house several blocks along highways 75 and 51, that other streets were available. The city attorney stated that the permit could be granted if proper precautions were taken. After some discussion the petitioner was referred to the highway department for permission to use the roads if they were desired. The commission adjourned at 2:37 p. m.

ed Frost 28-19 in one of the tournament's most thrilling games, and continued to the finals with another taking 24-26 decision over Bryan.

Union High's eligibility was protested by Coach Arnold Armstrong of Frost and Coach Strickland of Purdon on the grounds that the team was "too weak."

One, that is, a team composed of both high school and grammar school students. They charged that the team was "too weak."

High played a girl, who was in the seventh grade. The team was disqualified twice, but by mutual consent of the committee and opposing coaches was returned to the running.

In the 1936 game, Eva Hawthorne, Union High's outstanding offensive player, rang six field goals and two free shots for 14 points; Reba Seales converted for seven points, and Stockman made 6.

For Purdon, McCraw made five, D. Rogers two and Gunn one. Following is the box score: Union High 27, Purdon 8.

Union High: E. Hawthorne, f. 10 2 19; R. Seale, f. 2 2 7; Stockman, f. 3 0 6; L. Hawthorne, g. 0 0 0; G. Cooper, g. 0 0 0; G. Cooper, g. 0 0 0; Ward, g. 0 0 0; Bruce, g. 0 0 0.

Totals 11 5 11 27

Purdon: McCraw, f. 1 3 5; D. Rogers, f. 1 0 2; Gunn, f. 0 1 3; Scoggin, g. 0 0 0; B. Rogers, g. 0 0 0; Gathright, g. 0 0 0; Darden, f. 0 1 0.

Key Figures in Jap Rebellion

Three key figures who emerged as powers after the Tokio uprising in which five high officials were slain were General Sadao Araki, left, former minister of war, reported to have established a military dictatorship; General Kazushige Ugaki, upper right, former governor general of Korea, and General Jinzaburo Masaki, former chief of military education, both of whom were mentioned as candidates for the premiership.

NEW DEAL OFFICIALS PLANNING TO DROP MANY FROM WPA ROLL DURING NEXT SEVERAL MONTHS

WASHINGTON, March 4.—(P)—New deal officials plan to thin out WPA rolls by more than 700,000 persons in the next four months.

They count on a spring expansion in private employment and on such government activities as road-building and public works progress administration.

Administrator Harry L. Hopkins said yesterday the administration believes 100,000 persons a week would be placed in private or other employment from now until July 1.

While relief needs in the fiscal year beginning next July 1 were estimated unofficially at \$2,000,000,000, the president gave no indication how much he will ask the present congress to appropriate for this purpose. He said, however, there would be no unemployment funds left from the \$4,000,000,000 funds fund at the end of the year.

It was recalled that Mr. Roosevelt in his budget message said he did not anticipate the need for additional relief funds would be as great as \$2,186,000,000. In his tax message he reiterated hope of balancing next year's budget except for relief outlays.

At the White House discussion were Secretaries Roper and Perkins, and Major George Berry, co-ordinator of industrial co-operation. The meeting came only a day after the American Federation of Labor reported 12,600,000 jobs. Commenting on this report, the president said employment always dropped off in January.

Hopkins' estimate of re-employment if it materializes would mean return of more than 1,500,000 to work by July 1. He said WPA would start this month to cut the rolls from the high point of 3,937,440 in February to a minimum of 2,310,100 by June 30.

Senator O'Mahoney (D-Wyo.) told newspapermen he thought the president's suggestion for a tax on corporation surpluses might spur employment because "corporate managers might be more willing to give employment to a larger number of workers on a shorter week basis than to pay large taxes to the government."

HEROIC STAND OF DEFENDERS OF ALAMO BE COMMEMORATED 100TH ANNIVERSARY OF SHRINE'S FALL

AUSTIN, March 5.—(P)—Heroic fighters for Texas independence will be commemorated tomorrow at San Antonio as flags of seven countries and 11 states will be presented on the 100th anniversary of the fall of the Alamo.

Governor James V. Allred said today that Governor Hill McAllister would attend, with his adjutant general, H. B. Ballew, a native Texan, to personally present Tennessee's flag.

Governor George Earle of Pennsylvania dispatched by plane two members of his staff, Lt. Com. Joseph Cunningham and Maj. Wilson H. Stephens, to present that state's flag.

Other flags presented to the daughters of the Republic, custodians of the shrine, will be from Alabama, Connecticut, Georgia, Maryland, Missouri, New Hampshire, New York and Virginia.

All foreign countries represented by the hardy band of more than 180 men who died in the state's war for independence will present flags.

The countries are Denmark, Germany, Wales, Ireland, Scotland and England.

Mourning regulations incident to the recent death of King George V prevented a British official from participating in the ceremony. A Union Jack flag was sent with an appropriate message, however.

Dr. E. Wendler, German consul for 10 Southern states, will represent his country while Anker C. Jensen, president of the Danish American Society of Houston, was designated by the minister of Denmark, Hon. Otto Wadsted, as the Danish representative.

Representatives designated by various states included: Capt. New York—Mrs. Oveta Culp Hobby of Houston; Connecticut—Captain George O. Riggs of San Antonio; Maryland—Brigadier General James E. Chaney, commander of air corps, Randolph Field, near New Hampshire, Edwin Gordon Lawrence of El Paso.

Governor Allred said Governor McAllister would be honored with a dinner tonight to which former Tennesseans living in Austin were invited.

The Texas governor also planned motor tours of Austin for

LEAGUE OF NATIONS COMMITTEE DECIDES APPEAL FOR PEACE

ITALY AND ETHIOPIA ASKED
TO CONSIDER CESSATION
OF WAR IN AFRICA

By JOSEPH E. SHARKEY
(Copyright, 1936, By Associated Press.) GENEVA, March 3.—(P)—The League of Nations' "committee of 13," representing every member of the council except Italy, decided today to appeal to Italy and Ethiopia for peace and gave the two nations one week in which to reply.

The date was fixed specifically at March 10, at which time the committee will meet again.

The members agreed unanimously to the text of the peace appeal.

Its draft was discussed earlier in the day by Anthony Eden, British foreign secretary, and Pierre-Etienne Flandin, the French foreign minister.

The "committee of 13," entrusted with the application of sanctions, now will suspend its sittings until the replies come in from Rome and Addis Ababa.

However, on the motion of Eden, a group of sanctions experts will sit constantly for an uninterrupted study of details on the possible application of further sanctions including an oil embargo against Italy.

The text of the appeal follows: "The committee of 13, acting un-

der the mandate which the council entrusted to it by its resolution of Dec. 19, addresses a pressing appeal to the two belligerents toward the immediate opening of negotiations within the framework of the League of Nations and the spirit of the covenant with a view to the prompt cessation of hostilities and the definite re-establishment of peace.

"The committee of 13 will meet March 10 to take note of the replies of the two governments."

The appeal, the draft of which Eden telephoned to London, was drawn up for submission this afternoon to the League of Nations council committee of 13—the conciliation committee comprising all members of the council except Italy.

League officials, meanwhile, prepared the text of a resolution for imposition of an oil sanction upon Italy in the event that the peace move failed. The resolution affected both sale of oil to Italy and transportation by tankers of oil to Italy.

Informed Italian sources said Premier Mussolini was prepared to weigh carefully the peace offer, despite the threat of oil sanctions, as the league's conciliation efforts embarked on their most critical phase of the entire dispute.

The peace offer, however, must take into account the actual military situation and recognize the Italian claim that Emperor Haile Selassie's armies have been crushed.

Some pessimism was reflected in Italian quarters, where the view was held that the oil threat only added to Rome's difficulties in considering a peace appeal.

In a report the premier Mussolini's representatives had informed Flandin that Italy would leave the league and denounce the League pact if an oil embargo was adopted, however, was denied officially.

THE Brooks SHOP SMART STYLES FOR WOMEN

More New Dresses Late Styles -:- Extra Values

About 100 new dresses have been received this week. They are all the very latest styles—in solid shades—in smart prints, and some with the solid color coat, and print dress. We have these dresses in sizes ranging to 50 and if you intend buying a dress soon, you will do much better if you buy one now, while you can pick from such a wonderful selection. All of our outstanding values, ranging from—

3.95 to 9.95

SALE

Of Prints

7.95 values 4.95 at.....

One group of dresses, made by "Justine," makers of high class dresses—beautiful prints—Fast colors—originally made to sell for 7.95, offered special Saturday only at 4.95.

Tailored Suits 5.95 9.95 13.95

Tailored suits are predominating—Light gray leads—Other colors are pin stripe in navy or gray—we have a good selection and good values—Select your suit now—Range of prices—5.95, 9.95 and 13.95.

Sale Wash Dresses 1.95 Values on Sale.....

A special purchase of wash dresses—Regular 1.95 values, but being as we bought these in a special lot, we are placing them on sale at only 1.39. The sizes in this group range from 14 to 20.

5.00 Sample Hats On Sale 2.95

One group of Sample Hats—Made of this season's finest straw—Made to sell at 5.00 to 5.95, but being we bought the manufacturers Sample line, we are placing them on sale, while they last at only 2.95—Other styles—in felt or straws, all head sizes—Especially priced at—

rites held Tuesday for Lenard Gibson; Burial in Oakwood

Lenard Gibson, aged 25 years, died early Monday morning after a short illness and the funeral was held from the chapel of the Corley Funeral Home Tuesday afternoon at 4 o'clock with interment in Oakwood cemetery. The rites were conducted by Rev. M. W. Burgess of the Nazarene church.

Surviving are his wife, two children, Lenna Ruth and Nettie May Gibson, Corsicana; parents, Mr. and Mrs. L. L. Gibson, Chanute, Kan.; three sisters, Mrs. Frank L. Lush, Mrs. Edith Tokay, Houston, and Miss Mary Gibson, Chanute, Kan.; two brothers, Louis Gibson and Ervin Gibson, both of Chanute, Kan., and a half-brother, Clyde McHardy.

Ramblings of Roses Subject Interesting Garden Club Paper

This paper was prepared by Mrs. Ray Caffey and read by Mrs. Minis Seale at the last meeting of the Garden Club, and its publication has been requested.

It is impossible to fix a date for the earliest culture of the rose. Roses were listed as being a part of the planting of famous hanging gardens of Babylon, which were begun in 1200 B. C. by the King for his wife, who longed for her homeland of flowers.

Pliny, the Roman naturalist, devoted a whole chapter of his "Natural History" to the rose—its culture and uses.

Often in ancient literature allusion is made to "Buds of Roses," "Carpet of Roses," and "Showers of Roses." We know by this that the culture of the rose must have been extensive.

Cleopatra, the sorceress of the Nile, spread approximately \$600 worth of roses for a carpet when entertaining Marc Anthony. All this shows that the recent interest in rose culture is not so much an innovation as a revival.

The American Rose Society's slogan is "A Rose for Every Home" which now seems very probable.

Two months en route, packed in a wooden box in wet months, the Texas Gold and the Centennial, now grace the Imperial Gardens of Japan.

North, South, East, West, hot, cold, dry, damp, in the Arizona desert or in the humid air of the New England sea coast, in Florida or Maine—inquiry has proved that the one rose that grows best, blooms best, and stands most, has the appropriate name of Radiance. The Radiance rose was given the rose world by John Cook of Baltimore.

The American Beauty is not an American rose, but came into existence as Madam Ferdinand Jamsin, a French hybrid.

Garden Fifteen Years Old.

One of Mrs. Henry Ford's rose gardens, near Detroit, was planted 15 years ago with hybrid perpetuals, large beds, each of one variety. These plants have been pruned properly, only retaining the new wood and cut back to 15 inches. The individual bushes and blossoms are magnificent yet.

The most successful way of rooting a favorite rose is by layering. Cut a V-shaped notch in the stem at a point to be layered, bury the notched part in the ground and water thoroughly. Roots will develop where the notch is placed in the ground. After growth begins, cut from main bush.

All rose beds should be kept formal. The rose is a queenly shrub and should be kept formal to be at its best.

It takes about 200 pounds of rose petals to make one distilled ounce of oil of roses.

V. S. Hillock of Arlington, Texas, has patented a garnet-maroon rose, "The Black Knight."

It is a hybrid tea rose, which at night turns a deep crimson and under certain conditions displays a mixture of crimson and maroon-garnet.

It is important to know what root is used for budding roses. There is not a perfect rose root yet, but the one which has the least number of faults is known as multi-floral japonica. This Japanese variety rarely sends up suckers, is vigorous, and will produce nearly three times as many blooms as a rose on its own root. It is also heavy on place.

Should Never Be Fertilized.

Shrub roses should never be fertilized. Most of them refuse to bloom in rich soil. Rosa Hugonis, the poorer the soil, the better and more abundant the blooms.

The work of perfecting roses begins with the selection of the right varieties for your section of the country, and only those of sturdy growth.

To the inexperienced rose grower, we suggest the following quotation from Pilpay as a fitting slogan: "There is no gathering the rose without being pricked by the thorns." This Pilpay is said to have been a Buddhist gymnosophist (a naked philosopher) who lived several centuries before Christ—a forerunner of our modern nudist—he seems to have known his roses. (No one could pin one on him at any rate.) The thorns in this case could mean the work involved in growing perfect roses. No one who has attempted rose culture even on a small scale will deny that the thorns of real labor oft times prick severely.

Climbing roses do well on their own roots.

Roses need more protection from winter sun than from winter cold. Any protection must allow air circulation.

Always cut back to a five-part leaf in cutting rose blossoms, which case several eyes will rest on the stem and produce two or more blossoms.

Rose fanciers pinch off all buds during hot weather, for at such times roses are always poor and it gives the plant a beneficial rest for which they show their gratitude by better autumn blooms.

Courthouse News

Arguments of attorneys in the case of Newell Tinkle vs. Albert Jenkins Tinkle et al, partition, etc., was stated in the Thirtieth judicial district court Tuesday. The case has been on trial for about a week.

The criminal docket was postponed another day Tuesday.

District Clerk's Office. The following case was filed: H. E. Honea by next friend, vs. C. A. Honea, partition of 75 acres William Weaver survey.

County Court. The appearance docket for the March term of the county court was sounded Tuesday morning by C. E. McWilliams, county judge.

Probate Court. Dan P. Meador has been named independent executor of the estate of Mrs. S. J. Pile, deceased.

County Superintendent's Office. Enumerators in the various school districts of Navarro county started compiling the scholastic census for this year this week. This year must be completed during the month of March. All scholastics between the ages of six and 18 must be enumerated in order to get the state school apportionment. Parents are urged to see that their children are enumerated.

G. H. Brown, county school superintendent, stated Tuesday that song books containing the songs to be given by school children during the Texas Centennial celebration, are being distributed to all teachers in Navarro county schools. A chorus of 50,000 Texas school children will render a number of songs at the Texas Centennial in Dallas later in the year.

Mineral Deed. A. T. Hardaway et ux to L. E. Albritton, 1-3 interest in 105 acres Louis Powell survey, \$10.

Warranty Deeds. Dan Meadows et ux to Mrs. M. M. Cailleut, 4 acres John Lee survey in Blooming Grove, \$1 and other considerations.

The Federal Land Bank of Houston, Texas, to R. H. Farish, 279 acres Rawden, Wright and Hatch survey, \$3,000.

R. H. Farish et ux to E. W. George, 279 acres Rawden, Wright and Hatch survey, \$500 and other considerations.

BEAUTIFICATION OF PROPERTY ADJACENT HIGHWAYS DISCUSSED

Necessary surveys looking toward intensive plans for the improvement in appearance and beautification of property along Highways 75 and 31 before the spring and summer tourist travel starts were outlined at a meeting of the Works Promotional committee of Corsicana held Thursday morning in the offices of the American Well and Prospecting Company.

Lists of owners of various properties along the highways are now being prepared and will be ready for the attention of the committee at a meeting scheduled for next Wednesday morning at 10 o'clock at the Gumbo Buster plant, and plans for an active campaign are scheduled for initiation at that time.

In the meantime, members of the committee, representing the three service clubs, the city government, and the Corsicana Chamber of Commerce, are scheduled to make inspection tours and have lists of improvements ready for submission at the next week's meeting.

The committee discussed plans, under the leadership of chairman Ted B. Ferguson, for enlisting the co-operation of all property owners along the highways, including the railroads and other interests in a joint campaign for the general clean-up and improvement of that portion of the city.

It was pointed out that several substantial progress on their part for the enhancing of the appearance of their property.

**POWELL OBSERVED
INDEPENDENCE DAY
WITH CELEBRATION**

Powell Observed—24.

R. L. Sandlin of Austin, assistant secretary of state of Texas, and G. H. Brown, Navarro county school superintendent, were the principal speakers at the Texas Independence Day celebration staged by the schools and citizens of Powell, Mr. Sandlin spoke at the morning exercises and Mr. Brown addressed the meeting in the afternoon.

A large crowd was present and representatives from Corsicana, Kenna, Exatte, Roane, Angus and other communities were on hand.

A pageant depicting many of the early Texas historical personages and incidents was presented by the Powell school children.

PLANE CRASH

(Continued From Page One)

shotguns were found in the debris. A reporter for the Mena Star later said the two shotguns bore the initials "H. E. W." and "E. F. W."

The bodies will be taken to Mena, Ark.

The CCC party reported that the plane motor was JC or similar type. The craft had purple wings.

Muncie said he believed the plane was the same as that piloted by Woodward, which he said was purple-winged. The two left Fort Smith at 9:15 a. m. this morning after stopping there overnight.

Member Wealthy Family.

HOUSTON, March 5.—(P)—Harley E. Woodward, 34, believed killed today in an airplane crash in the mountains of western Arkansas, was a member of one of the wealthiest families in Texas.

The bodies of two men believed to be Woodward and his cousin, Edward Martin, of Daisetta, Texas, were found in the wreckage of a plane west of Mena, Ark.

Woodward was a son of E. F. Woodward, multi-millionaire Houston oil man and sportsman, and was president of the Woodward and Smith Cattle company here. He had been to Kansas City and to Wichita, Kansas, to participate in an interstate trapshoot and to purchase a new plane.

Martin was reported to be a medical student at Kansas City. He was accompanying Woodward to Houston and had planned to go from there to his home at Daisetta.

NEW YORK STRIKE

(Continued From Page One)

arbitrate the building service employees' strike, James J. Bambrick, strike leader, today declared that he would "carry the fight to its finish."

Bambrick said he was prepared to issue strike calls for sections of the city as yet unaffected by the walkout which began last Sunday.

The statement of the strike leader, who is president of the local unit of the Building Service Employees Union, came after peace negotiations at City Hall ended in sharp disagreement.

Real estate owners, through representatives, declined to arbitrate on the closed shop issue, one of three demands the union is making.

To the reality interest, Mayor LaGuardia, who has strenuously sought a settlement of the strike, said:

"I want to appeal to the real estate interests to consider this offer x x x."

"The minute the arbitration offer is accepted the union will call off the strike and go back to work. I can not see how any reasonable persons can reject any such offer."

NEW YORK, March 5.—(P)—

Another effort to end the strike of service workers in hundreds of New York City's skyscrapers and apartment houses failed today when a conference of employees' representatives and building operators broke up in disagreement.

Mayor F. H. LaGuardia, who for three days has sought to arbitrate the strike, said that he felt his efforts were finished and laid the onus of the breakdown in negotiations squarely up to the building operators.

James J. Bambrick, local president of the Building Service Employees Union, previously had said that if an agreement was not reached by the conference he would give the order to "tear up the town."

There seems to be no possibility of agreement despite the fact that the union has offered to arbitrate any question and return to work this morning, the mayor said.

"The union's offer to arbitrate every question has been rejected," the mayor's announcement came at the end of an all night conference at which city and federal officials had tried to end the strike which started with dramatic suddenness last Sunday and in ever-widening waves spread over the city.

So widespread did the walkout become that Mayor LaGuardia, acting to preserve threatened health conditions, declared a state of civic emergency Monday.

Seeks to Question Leaders.

While the strike continues in full force today, District Attorney William C. Dodge sought to question Bambrick and George Scallise international vice-president. Subpoenas were issued for them last night.

Dodge wanted the union leaders to answer questions concerning the violent parade on fashionable Park Avenue that followed Bambrick's remarks and charges made by the newly organized tenants' defense league that Bambrick had conspired to "incite to riot."

According to police reports there have been more than 600 instances of violence and disorder and 90 arrests since the strike started without warning last Sunday morning.

Bambrick, looking tired and haggard as he left the Mayor's office in city hall after the conference would not disclose the union's future plans.

Await Next Union Move.

As operators waited today for the union's next move, police estimated today that service in 1500 buildings was affected by the strike.

While skyscraper dwellers found their greatest inconvenience in lack of elevator service, city officials expressed alarm over growing accumulations of garbage.

Aiding the mayor in attempting to settle the strike were Ben Goldman, of the regional labor board, and Edward F. McGrady, assistant secretary of labor. The mayor, in his statements, made it clear he was speaking for them as well as himself.

Sick and Convalescent.

John Zafaronitis, who has been quite ill at home for the past two weeks or more, was reported Thursday afternoon to be much better and was able to be up about the house and out in the sunshine. He expects to return to work in the near future.

Another Reprieve For Hauptmann Is Not Now Planned

NEW YORK, March 5.—(P)—

Governor Harold Hoffman of New Jersey today denied that there would be another reprieve for Bruno Richard Hauptmann, convicted slayer of the Lindbergh baby.

"As matters now stand," Governor Hoffman said just before addressing the Broadway Cheese Club luncheon at the Hotel Astor, "there will be no further reprieve for Bruno Richard Hauptmann."

**COMMITTEE NAMED
TO PLAN NAVARRO
DAY AT CENTENNIAL**

A county-wide committee to make plans for the observance of Navarro County Day on July 13 and to carry out the plans to a conclusion in a big celebration was announced Tuesday by President E. W. Ellis of the Corsicana Chamber of Commerce.

Festus A. Pierce was designated as chairman of the group and the first meeting for organization and initiation of plans will be held on Monday, March 9, at the City Hall at 2 p. m.

Other members of the committee include F. C. Paul, W. C. Strope and Charleston Gunter, all of Corsicana; T. M. Sewell, Blooming Grove; E. D. McCormick, of Frost; E. B. Dawson, Dawson; Jim Taylor, Kerens; H. C. Davis, Embury; H. C. Russell, Purdon; E. H. Hanks, Powell; H. D. Smith, Navarro; J. A. Bonner, Eureka; E. P. Estes, Roane; W. B. Payne, Purley; J. K. Hawthorne, Streetman; and R. H. Witherspoon, of Chatfield.

As he left the Mayor's office in city hall after the conference would not disclose the union's future plans.

Much Acreage Been Blocked From Powell Towards Northeast

ATHENS, March 3.—(Sp.)—E. B. LaRue of Athens, has assembled a block of 7,000 acres beginning at a point near Powell in Navarro county and extending along the fault line in the panhandle of Henderson county to a point near the Kaufman county line. This is the largest block of acreage taken thus far along the fault line south of the Talco area when recent oil developments have centered.

Sick and Convalescent.

Domice Neal, junior high school student, injured his left ankle in a fall at the city park Sunday. One bone was broken, and after treatment by a local physician he was taken home.

Deputy Sheriff Jack Floyd was able to resume his duties at the courthouse Thursday. He has been at his home for the past several days recuperating from injuries sustained last week when

Downtown Club San Antonio Was Robbed Thursday

SAN ANTONIO, March 5.—(P)—

Two armed men this morning held up the Metropolitan Club in the downtown section and escaped with \$1,190 after trussing Leon Voigt, operator of the club, and Sam Phillips, his son-in-law, with wire. The men managed to free themselves ten minutes after the robbers had fled.

his automobile turned over several times east of Corsicana while he was chasing a motorist. Five ribs and an arm were fractured.

C. A. Leddy, Jr., official reporter of the Thirtieth judicial district court, is reported to be on hand in the district court Thursday.
